IN presenting the Eighth Edition of the CITY OF TORONTO DIRECTORY to the public, the Compiler begs to assure his patrons that every effort has been made to render the work as complete and reliable as possible, and to thank them for their liberal support. This edition contains upwards of *Sixteen Thousand Names*, which, including Yorkville, Leslieville, Brockton and Chester, is the average of a city of about *Seventy-five Thousand Inhabitants*.

It is the intention of the proprietor to issue the work annually, and at an early date in Spring.

Notice of anticipated removals, formation or dissolution of partnerships, election of society officers and other information, should be sent by mail to "PUBLISHER, CITY DIRECTORY," early in January.

It may be useful to mention that this edition contains upwards of *two thousand names of citizens* omitted in a Directory published lately by a Lower Canadian firm.

Toronto Fire Alarm Telegraph.

DIRECTIONS TO KEY HOLDERS.

Upon positive information of a Fire near your signal box, unlock the signal box door, and if you hear a ticking in the alarm, the number struck : if the number struck is the number of any box near the fire, you may conclude that the alarm was given by some person before your arrival. If no ticking is heard in the box, pull the brass hook all the way down about two inches—once only—and let it go ; then wait a few minutes, and if you hear no ticking in the box or alarm bells, go to the next nearest box to the fire, and pull the hook in that box. On no account should the hook in any box be pulled until after the ticking in the box has ceased for at least fifteen seconds, and no alarm should be given for a fire only on fire. Never open the box, or touch the hook, except in case of fire. Never give an alarm except from the box nearest the fire, unless you have first ascertained that the box nearest the fire will not work. Be sure the box is locked before leaving it. Never let the Key go out of your possession unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent or Chief Engineer of the Fire Department. The Key should be kept in a certain and secure place, out of the reach of children or strangers, but readily and easily got at when required.

AMONGST the many increasing industries of Canada "The Waterloo Yeast Co." must take rank as one of the foremost. As is well known this company manufactures the celebrated brand of "Twin Brothers" yeast, which, although enjoying a long established reputation in the United States has only within the last two years opened a factory in Toronto. The undeniable merits of the article has ensured its use in almost every household in the Dominion, and who are there that are unacquainted with the familiar features of the "Twin Brothers" in the stores throughout the two Provinces. To the perseverance and energy displayed by the firm is due the large business transacted, over twelve millions (12,000,000) yeast cakes having been manufactured and sold since their introduction in Canada. They have made extensive arrangements to meet the increased demand for their yeast, and are able at the shortest notice to execute all orders entrusted to their care. They take this opportunity of returning their sincere thanks to the public for the kind and liberal patronage bestowed upon them.
