### ELEVENTH MEETING.

COUNCIL CHAMBER, June 17th, 1903.

The Council met on the call of the Reeve at 11 a.m. Members all present but Councillor Mr. Geo. Syme.

### COMMUNICATIONS.

Received from:—A. Morphy, Bursar U. C. C. claiming exemption for all persons in connection with the college from income tax, under chapter 42 Ontario Statute, 1901. H. H. Grant re arrears of taxes against property annexed to East Toronto, Messrs. Armour & Mickle, Solicitors, enclosing petition of Jos. Williams and five other property owners protesting against the proposed annexing of their property to the Town of East Toronto.

### RESOLUTIONS.

No. 2588. Wanless—Henry.—Whereas the Municipal Council of the Township of York have received a copy of a bill entitled "An Act to incorporate the Toronto and Hamilton Railway Company." And whereas some of the provisions contained in said bill do seriously affect the Township of York and especially as to its control of the Electrical services and highways and other matters relating to the said township. And whereas the said Municipal Council have entered into special agreements with several of the Electric Railways running through the said Township. And whereas this Council considers that some of the propositions in the said bill would seriously affect the said contracts entered into between the Township and the Electric Railway Companies, and otherwise. Resolved that this Council desires to put itself on record as diametrically opposed to the passage of several specific clauses in said bill as far as the Township of York is concerned, namely:—Clause 2, 9 and 12 as set out in said bill, and that a copy of this resolution be forwarded at once to the Hon. the Minister of Railways at Ottawa, with a request that the said Minister will give due weight to the opinion of this Council as hereby expressed, and that this Council be represented at Ottawa, if necessary, to oppose the passage of the herein mentioned sections as contained in said bill, as the Council considers that the interests of the Township would be seriously affected and great injury would be done if the said clause were passed, and that the Township's rights under said agreements and otherwise would be seriously interfered with if not altogether annulled. Carried.

No. 2589. Maclean—Henry.—Whereas, the Council has been notified by the Solicitor for the C. P. R. that an application is about to be made to the Railway Committee of the Privy Council on behalf of the C. P. R. for authority to lay a siding across Huron street, on a level immediately north of the boundary of the City of Toronto, according to a plan attached to the Solicitor's letter; And whereas it is the opinion of the members of the Council that the laying of such crossing as aforesaid will greatly increase the traffic by the railroad company across the streets

of the Township in this locality, and consequently increase the danger to pedestrians and others using the said streets; Resolved, that the Council of the Township of York do hereby oppose the said application, except upon the express condition that the C. P. R. Company shall agree to install and maintain at the expense of the company such gates or other constructions as may be found necessary for the protection and safety of all parties using the streets in the locality of the said crossing, and that a copy of this resolution be forwarded to the Clerk of the Railway Committee of the Privy Council. Carried.

No. 2590. Henry—Maclean.—Resolved, that the Reeve and Clerk for and on behalf of the Township of York, be and are hereby authorized and instructed to sign a deed of conveyance of lot No. 26, Plan 861, Clinton Ave., as the same is registered in the Registry Office for the County of York, to Joseph A. Hoad, of York Township, upon receipt by the Treasurer of the sum of \$60.00 therefor, and the Corporate seal be attached hereto. Carried.

No. 2591. Wanless—Maclean.—Resolved, that the Clerk of this Municipality be and is hereby instructed to subscribe for a copy of the Ontario *Gazette*, for the use of the Council and officials of the Township of York, and the said copy shall be kept in the office of the Clerk, and the seal of the Corporation be attached to this resolution. Carried.

Council adjourned.

#### RESOLUTIONS.

No. 2613. Maclean—Henry.—Resolved that this Council reiterates its opposition to various clauses of the Bill to incorporate the Toronto and Hamilton Railway Company, as reprinted with proposed amendments, and it hereby re-affirms its opinion on the Bill as follows: (1) This Council declares that it is not in favor of any railway constructed or to be constructed upon a highway being declared to be "a work for the general advantage of Canada." (2) This Council further declares that it is in favor of all such railways being under and controlled by Ontario legislation only. (3) This Council is of opinion that the Toronto and Hamilton Railway is not properly "a work for the general advantage of Canada," because in the opinion of this Council it will substantially be a railway built upon highways and fulfilling only ordinary highway purposes. Carried.

No. 2614. Maclean—Henry—Resolved, that Solicitor Kyles be and is hereby instructed to attend the meeting of the Railway Committee at Ottawa to protect the interests of the Township as far as they are affected by the Toronto and Hamilton Railway Bill, and that the seal of the Corporation be attached hereto. ## TOWNSHIP OF YORK AUDITORS' REPORT FOR THE YEAR 1903.

---

To the Reeve and Council of the Township of York :

Gentlemen,—Under the authority of By-law No. . . . ., passed by your Council we have audited the accounts of the Township of York for the year ending 31st December, 1903, and herewith present the following statements, namely :

1, Summary of Receipts and Disbursements. 2, Detailed Statement of Receipts. 3, Detailed Statement of Disbursements. 4, Schedule of School Loan Debenture Debt. 5, Schedule of Local Improvement Debt. 6, Revenue Account. 7, Profit and Loss. 8, Balance Sheet.

The income from all sources for 1903 amounted to \$87,747.36, and the total expenditure \$83,034.56, leaving a balance of \$4,712.80, which has been transferred to the credit of Profit and Loss Account.

Profit and Loss Account : The credit balance of last year brought forward is \$575.46, and the profit for the year \$4,712.80, making a total of \$5,288.26. The Council authorized us to write off various accounts which have been carried as assets heretofore, and after debiting profit and loss account, there still remains a credit of \$1,884.57.

We have also examined authority for payments, together with vouchers, and do hereby certify the same to be correct. We have examined the securities held by the Treasurer and Imperial Bank in trust, and find them correct, and have verified the bank and cash balances. The securities furnished by the Township Treasurer consists of a guarantee bond for \$10,000 and a personal bond for \$20,000.

Your Auditors would call the attention of the Council to the shortage in the Sinking Fund of \$8,127.21.

We beg to report we found the books of the Municipality in excellent order.

All of which is respectfully submitted.

W. A. CLARKE, Clerk.

WILLOWDALE, Feb. 1904.

To Reeve and Council, Township of York, Toronto :—

Sirs,—As per instructions we submit the following report re Township Public Works, etc. for the 14 sections, expenditure, etc. as per Treasurer's Statement of 15th December, 1903.

No. 1—*Norway Section*, including lots 1 to 9, inclusive, in the 1st Con. from Bay and broken front, except parts in the city and Town of East Toronto and part lot 1, north of Grand Trunk Railroad.

|                                        |              |
|----------------------------------------|--------------|
| Assessed value for 1902.....           | \$451,462 00 |
| Expenditure for 1903 .....             | \$2,382.67   |
| Commuted Statute Labour .....          | 1,153.27     |
| Expenditure over Commuted Labour ..... | \$1,229.40   |

The following is an approximate statement re cost of materials :—

|                                      |                 |
|--------------------------------------|-----------------|
| For lighting streets.....            | \$208 57        |
| For lumber, walks, bridges, etc..... | 240 00          |
| For hardware, spike, etc.....        | 33 80           |
| For paving blocks.....               | 25 00           |
| For sewer pipe.....                  | 57 00           |
|                                      | <u>\$564.37</u> |

A large wooden bridge on Gerrard Street has been in bad condition and caused considerable expense in repairs so as a matter of economy, and to lessen the risk of accidents, we removed the bridge and put in large sewer pipe and filled in the ravine at a cost of about \$200, but have used the old materials to advantage.

For some years there has been trouble by reason of the flooding of the lots at the north-east corner of Woodbine Avenue and the Kingston Road, and persons living on Woodbine Avenue to north of Kingston Road have urged the improvements of the hills and the filling in of the ravine and thus raise the walk and widen the embankment.

The Council had the south hill graded to permit of an open ditch and widened and raised the embankment and extended the culvert all at a cost of about \$600. As there was not sufficient funds to grade the north hill it was put off to another year.

There was a considerable washout on Lee Avenue by reason of the failure of the Don at Ames Fish Pond, this cost about \$100.

We have considerable expense in this division in keeping in repair sidewalks. We put about 350 feet of new 4 foot walk on Coxwell Avenue.

No. 2—*Coleman Section*, including lots 1 to 5 inclusive in the 2nd and 3rd Concessions from the Bay and the north end of Lot 1, Concession 1 from Bay north of G. T. Ry.

|                                   |             |
|-----------------------------------|-------------|
| Assessed value for 1902 .....     | \$79,815 00 |
| Commuted Statute Labor .....      | 343 75      |
| Expenditures for 1903 .....       | 310 12      |
|                                   | <hr/>       |
| Balance not spent .....           | \$33 63     |
| Expenditure for material about :— |             |
| For Hardware .....                | 1 50        |
| For Hardware .....                | 6 97        |
| For Sewer Pipe .....              | 22 00       |
|                                   | <hr/>       |
|                                   | \$30 47     |

The expenditure of this section since Coleman entered the Town of East Toronto has been reduced, also on account of the Township of Scarboro' assisting in maintaining the Dawe's Road lately. We have another advantage in getting good gravel free of cost on the Town Line north of the Kingston Road.

No. 3—*Todmorden Section*, comprising lots 6 to 11, inclusive, in the 2nd Con. from Bay and lots 6 to 11, inclusive, in the 3rd Con. from Bay.

| Expenditure for materials about—               |              |
| For broken stone. ....                         | \$121 22     |
| For lumber, for sidewalks and bridges. ....    | 405 77       |
| For hardware, spikes, etc. ....                | 36 35        |
| For sewer pipe, culverts. ....                 | 132 00       |
|                                                | \$695 34     |

An expenditure was caused in this section by the washing out, by spring freshet, of the easterly end of the large bridge over the Don at Young's factory. Mr. Russel's contract to repair, including lumber, piles and pile driving, and iron, etc., came to \$246.63. At the time this bridge was built, as a local improvement, its location was good as the main body of water and ice in the spring freshets passed to the westerly side of the flats; thus not materially interfering with this bridge. On the construction of the Belt Line Railway, it was found necessary for the Railway Company to protect the Railway from the spring freshet and they built a long line of piling sheeted with plank, which turns the spring freshets, now to the site of the bridge, and each year causes large washouts in the banks of the Don at and adjoining the bridge and injures the bridge. This cannot be avoided without a large expenditure to protect the banks of the Don and the work would have to be done on private property. The proposed improvement of the Don by the city may help us.

A considerable expenditure has been caused in the repairs of sidewalks and culverts. In the repair of culverts we have used sewer pipe. It would be better to rebuild the sidewalks with brick, but R. Davies does not now make suitable brick.

The large bridge, of 2 spans, over the Don on the Pottery Road, and the adjoining bridge over the Head Race had to be repaired, costing about \$425.00.

We have a number of times recommended the raising of the 100 feet span steel bridge at the forks of the Don, on the Don

Road, but Council did not wish to incur the expense. When built it was raised  $3\frac{1}{2}$  feet higher than the old one of about 70 feet waterway ; but since R. Davies removed the dam at the old upper paper mill, on the west branch of the Don, we have been troubled each spring. To aid the flow of water and ice, we have this year removed some trees which blocked the ice, and also widened and deepened part of the bed of the Don under and adjoining the bridge, and will have the fences on flats at the bridge removed, and will try to have the ice under and adjoining the bridge broken up before the heavy spring freshets.

On account of the high price and trouble in getting cedar posts during the summer, we have arranged to have 200 delivered at Don land station.

No. 4—*Deer Park Section*, comprising Lots 16 to 20 inclusive, Con. 2 from Bay, Lots 12 to 15 inclusive, and Lots 19 and 20, Con. 3 from Bay, East of Yonge Street, and Lots 21 to 24 inclusive in the 2nd and 3rd Cons. from Bay west of Yonge Street, in the Township of York.

|                                              | \$2631 62      |

It will be observed that the expenditure is large for lights, sidewalks and watering Yonge Street. A new watering tank was bought as the old one was beyond repair.

Parnham and Olive Avenues were graded. Moore Park steel bridge had repairs made to guards on roadway. The roadway at and under the south end of the high wooden bridge on Spadina Road, south of St. Clair, required a considerable expenditure in repairs on account of washouts.

On account of the scarcity of stone and high price we made a deal with the Metropolitan Railway Co. for the delivery of about 100 toise of screened machine broken boulder stone at \$14 per toise delivered on Yonge Street. These stone are broken on the Schomberg Railway in King.

\$1,186 92

The principal expenditures were for sidewalks and grading Davenport Road. The grading of Davenport Road was to prepare it for macadamizing as we expected to get a large quantity of machine broken stone via G. T. R. at Davenport station. We were very much disappointed in this as the Metropolitan Ry. Co. did not get the junction of their Schomberg line with the G. T. R. in King. So soon as this is done we can get any amount of stone.

No. 6—*Davenport Section*, comprising lots 30 to 33, inclusive, in the 2nd and 3rd Cons. from Bay in the Township of York.

There are three main roads in this section—Ellis Avenue, Windermere Ave. and Jane St. Ellis Ave. was built as a local improvement, having a roadway with a foundation of large river stone and gravel covering. A sidewalk was built at same time as a local improvement.

Windermere Ave. runs northerly from the bolt works. During this year we have been replacing the old plank walk by cinders, which we get at the bolt works.

The opening of Queen St. in this section has been talked off for some years as a local improvement, but nothing done yet.

The main roads are Dundas Street, St. Clair Avenue, Jane Street, Scarlet Road. We have difficulty in getting good stone and gravel, until lately we got field stone from Etobicoke at about \$6 per toise, but cannot get them now for less than \$8, as the Township of Etobicoke is now buying and parties do not care to draw so far. We can get Humber shale stone but it is not good for macadam. We have arranged with P. Ryan to get coarse gravel from the old pit on Lot 37, Con. 3 from Bay. We have used brick from sidewalks on Dundas Street and built at a reasonable cost of about 30 cents per foot 4 feet walk as the Ontario Paving Brick works are near and we have fine gravel on Jane Street.

We have also built some gravel walks on St. Clair Avenue. The Scarlet Road is very bad in spring and fall on account of heavy shale teams. As our people use this road very little we have not spent much on it. The Black Creek bridge on this road requires considerable expenditure annually.

This is an expensive section to maintain on account of the three large bridges on the Black Creek and the large bridge on the 4th Con. and the Weston Road, Lambton Ave., the 4th Con. Eglinton Ave. and other roads. We cannot get good stone or

gravel but must depend on Humber shale stone. The shale and brick teams and heavy traffic from the north even from Schomberg, are very bad on the Weston Road. The 4th Con. north of Eglinton Ave. in this locality was fairly well graded. Lambton Ave. on account of the shale teams cannot be kept in good repair unless built up as a macadam road. The sidewalk and culverts require a considerable expenditure. We have a number of cinder walks. We tried to improve the drainage of the Weston Road but on account of the early frost could not finish.

A few years ago there were plenty of stone and gravel for the roads at reasonable prices and men to break the stone, now stone cannot easily be got and secured only at a high price and it is difficult to get men to break the stone, so we have arranged with the Metropolitan R'y Co. to deliver about 100 toise part of which to go to Deer Park and counted on having some delivered at Davenport station on the Grand Trunk and the remainder on Yonge St. North. We have had some delivered on Yonge St. North and at Deer Park but were disappointed in getting some to Davenport Station. Our arrangement with the R'y Co. was \$14 per toise for machine broken stone, screened. We have during 1903 done considerable grading and gravelling on the side roads. We have repaired the Don Bridge at Bathgate road, York Mills, and have repaired culverts by putting in sewer pipe. We repaired side walks to some extent on Yonge St., but much more is required in 1904. We did considerable drainage on Yonge St., assisted by the Metropolitan R'y Co.

Two large Don Bridges have been repaired in this section at lot 25, con. 2, E. Yonge St., and at lot 22 con. 2, E. Yonge St. On account of the traction engine breaking down, culverts and culverts wanting repairs, we have put in a number of Sewer Pipe Culverts.

We were having the ditches cleaned out but in this section as in others we could not get men and the ground froze up early.

There are 6 Black Creek Bridges in this section and one high long bridge on the 4th Con. at lot 7.

We have had considerable grading done in this section, and have had gravel put on the Weston road and Vaughan road. We cannot get field stone but hope soon to be able to get machine broken stone from Tp. King. We get gravel for 3rd con. from the Don. We are putting in Sewer Pipe for culverts where requiring repairs.
