The above indicates the design and scope of the volume. I cannot give a better idea of the work, than to quote from the author's preface.

"The author of this volume has for many years, at intervals, been engaged in its preparation. It has long seemed to him very desirable, that a brief, comprehensive, and readable narration of the origin of Christianity, and of its struggles and triumphs, should be prepared, adapted to the tastes of the people. The writer is not aware that there is any popular history of the extraordinary events involved in the progress of Christianity which can lure the attention of men, even of Christians, whose minds are engrossed by the agitations of busy life. And yet there is no theme more full of sublimity, exciting and instructive interest. All the heroisms which the annals of chivalry record, pale into insignificance in the presence of the heroism with which the battles of the Cross have been fought, and with which Christians, in devotion to the interests of humanity, have met, undaunted, the most terrible doom. It has not been the object of the writer to urge any new views, or to discuss controverted questions of church, polity or theology. This is a HISTORY OF FACTS, not a philosophical or theological discussion of the principles which these facts may involve. No one, however, can read this narrative without the conviction that the religion of Jesus, notwithstanding the occasional persecutions of human depravity or credulity, has remained essentially one and the same during all the centuries. We need no additional revelations. The Gospel of Christ is the power of God and the wisdom of God."

In presenting such a work to the public, I do it in confidence, and with the full assurance that it will fill a place never before occupied, and that an appreciative people will welcome it to their homes and read it at their firesides, and that it will also find its way into the classic libraries of the country.

The writer is admirably fitted for the task. Having written the histories of Russia, Prussia, Austria, Italy and Spain, he has of necessity traversed the scenes of religious conflict; and then his pen invests every subject upon which he writes, with that peculiar charm which not only interests, but instructs the reader. It is safe to say that no man in this country is better informed upon this important subject.

# The History of Christianity, by John S. C. Abbott.

It is unnecessary for a volume of this character especially from the pen of such an eminent historian, to present a long array of testimonials.—[I have no fear of contradiction when I say that it is the BEST popular history of Christianity ever published, in fact it is the ONLY one adapted to "the People."

The following extract of a letter to the author from a distinguished Clergyman of Massachusetts echoes the sentiment of Ministers of the Gospel of all denominations—who have had the opportunity of reading the work.

"I have this evening finished the reading of your 'History of Christianity';—which I have perused with great interest and care.

The portion which would naturally be most interesting to me, is the Life of Jesus. I have traced your narrative, with the greatest pleasure, as I have been over the same ground in my private studies last winter. I have been particularly interested in your clear exhibition of times, places and distances, which I regard as indispensable means of understanding the history. There are other elements in your delineation very much to my taste.

The events of the first century, and the eighteen succeeding ones, gives us clear and concise a view of the great features of the conflicts of the Gospel as can well be condensed in the same compass.

I think you are to be congratulated in the accomplishment of this work. It must have been a very interesting and profitable employment to him who has written it. I am sure, could write such a Life of our Saviour, without receiving as much benefit himself as it must confer upon others.

The last twelve pages of the book I think grand, elevating, sublime, and I think will stand among the best passages from your pen.

[From Hon. Apollon T. Cheasey to the Author.]

"I have perused the History of Christianity, with great interest and satisfaction. I consider it as one of your best, and think that it will prove, in the great roll of time, the most useful to mankind of all your able works. It presents, in fresh and attractive narrative, the life on earth of our Saviour.

[From the Methodist Home Journal.]

"Abbott's History of Christianity, issued by R. B. Russell of Boston, is a remarkable, fresh, readable and instructive work. Of all the histories of the church, not one was really popular. Mosheim, Hagenback, Milman, though highly valuable as critical and learned works, are so heavy, and dry, that the people never read them. Abbott does for the church what he had done for Napoleon and Frederick—popularizes its story. His history is a miniature picture gallery where all the *Chiefs d'œuvre* look down upon us from the walls. He gives us a dry narration of events, but a series of warm and glowing pictures of the chief men and things, a moving panorama of the life of the church. Life Boehrer's Life of Christ. The work is concise, vigorous, picturesque, and for such the eye itself enlists the interest of the common reader. As a popular introduction to ecclesiastical history it has no equal. Indeed it reads the finest essay in that line, and as such will not fail to find readers."

[From the Congregationalist.]

"The spirit of the book is excellent, and no one can rise from its perusal without a profound sense of the grand and noble of Christianity. It is written in the author's usually pleasing style, and adorned and enriched with several pictorial illustrations and maps."

[From the Home Guardian.]

"The vivid and life-like description of the sanguinary conflicts between Paganism and Christianity, with the attacks of Pogeey, the speeches of Helena the Christian Empress, of Constantine, the exhortations of the sixth century, the dark ages, the reformation and principal projects of it, make this volume one of great interest."

[From Rev. F. M. Simons, in Zion's Herald.]

"Most admirably has the renowned historian, J. S. C. Abbott, accomplished the difficult task—of task which few writers would dare to undertake—of compressing eighteen centuries of the world's most wonderful history into one octavo volume of five hundred closely printed pages. This book is bound like Jerusalem of old, "compact together." Through the pleasant pathways of its pages, "travellers" will walk and talk with increasing delight. The seven facts of truth's great struggle are here portrayed in sufficient prose, as bewitching as a novel, and hardly less interesting to read than the mere measure of the Royal poet's epic. A few of the first chapters embrace an intricate and comprehensive record of Lord's life and teachings, in many respects equal in some aspects, to those more pretentious volumes, of which we have so many, known as "Lives of Christ."

Mixing secular and religious, sacred and profane together, surveying the whole compass of the initiation and progress of Christianity from its inception in Bethlehen to its present proud, commanding eminence in all civilizations, and written, withal, in that graceful, popular, and yet, thoroughly correct style so well suited to the taste of readers, and so well known to Mr. Abbott, so justly celebrated, this history meets an evident want of the time, and becomes an invaluable addition to our current Christian literature. The two chapters on St. Paul, St. Peter, St. James, and on Mohammed, are worth the price of the book.

[From the United Presbyterian Review.]

"The author has peculiar qualifications for a work of this kind. His power of selecting and presenting the salient points of history are well known from his former works. His style is excellent. He has avoided controversy, and is, in the main, very fair and accurate in his judgment of persons and events. We are confident that he has filled a place by this volume that has not been occupied by any other. This History will be read in hundreds of families in which larger church histories would find no place or would be laid aside as uninteresting and wear ying in the effort to peruse them. The volume is richly illustrated, and very neatly bound. It is sold only by canvassing agents. There will no doubt meet with a ready reception all over the country."

[From the Lutheran Observer.]

"The public are well aware of the attractive style of all Mr. Abbott's histories and biographies, and this volume combines not only all the attractions of his popular style, but those of a subject so most interesting and permanently important that it can engage the pen of any author. To compress the history of nineteen centuries of Christianity into one volume is a work of the greatest difficulty. Yet Mr. Abbott has succeeded in this difficult task, and has given a connected narrative throughout, quite full during the life of Christ, and the first centuries, and gradually omniscient less important details, not presenting only the leading events and characters in the progress of Christianity down to the present time.

As a popular history for families it is an excellent work. It forms a most octavo volume of over 500 pages, illustrated with maps and fine engravings, among which are portraits of the author, the reformers, and others eminent in the church, and also a likeness of Jesus, after Delauro's."

[From "Pastor and People."]

"This is one of the best books for family reading that has come under our review for a long time. Mr. Abbott, always a good writer, seems here to have done his best. A fine steel engraved portrait of this eminent author forms the frontispiece of the book. We hope, for the religious improvement of our land, that Christians of every name will secure this book. They can scarcely have a better one for the use of their households. The publisher sends it out in fine style."
