DOUBLE BARREL SHOTGUNS

NEW LEFEVER NITRO SPECIAL GUN, \$34.00

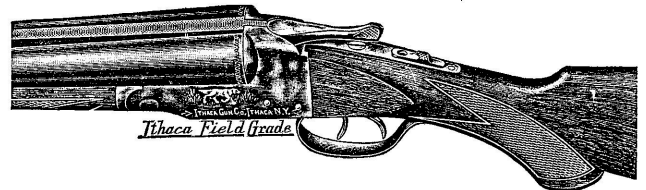

This gun, known as the Lefever Nitro Special, is well finished. It is built to shoot right and to stand as much as any gun ever built. The Lefever Nitro Special has non-breakable coil springs, the stock is securely fastened to the frame with a draw bolt running up through the grip of the stock to the frame. The top snap may be tripped by simply pressing down with your thumb on a trip pin, which comes up through the face of the frame. The lock was designed by the best gun-maker in America, and the new Lefever Nitro Special Gun was fired about 10,000 times without a break. A Lefever Gun won the World's Championship at the Olympic Games in London. It has stood for service and durability for 50 years.

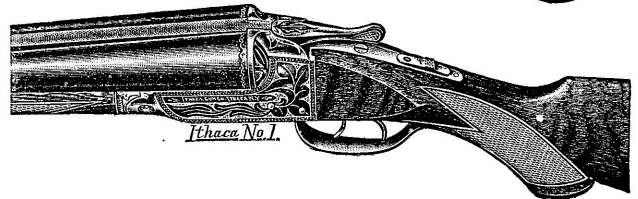

ITHACA HAMMERLESS GUN

These Guns have the following features: Three-piece lock, the simplest gun lock ever made. Three-Bolt locking system. Coil springs, guaranteed never to break, and backed by sixty-five years of gun manufacturing experience.

ITHACA FIELD GUN for smokeless powder, steel barrels, black walnut stock, good color, well finished, half pistol grip, fore-end and grip checkered. All metal parts forged from the same steel used in the highest grade gun. 12, 16 and 20 gauge. Price..... **\$48.00**
Automatic Ejector, extra..... **17.50**

ITHACA GRADE 1—Nitro steel on stub, twist barrels, full pistol grip stock, stock and fore-end checkered, rubber butt, 12, 16 and 20 gauge. Price..... **\$64.00**
Automatic Ejector, extra **17.50**

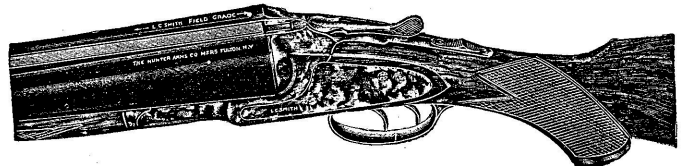

L. C. SMITH FIELD GUN

"The Gun That Speaks for Itself"

SPECIFICATIONS : Full pistol grip. Barrels, 28 and 30. Weights—12 gauge, 6¾ to 7¾ lbs. 16 gauge, 6¼ to 7 lbs. 20 gauge, 5¾ to 6½ lbs.

A Real Knock-About Gun. Especially designed to fill the increasing demand for an inexpensive, durable and plainly finished piece, this gun has become very popular. Thousands of the "Field" model are in the hands of hunters who declare its excellence as a gun for rough work. Where such service is required—in the timber and the brush—there the "Field" may be found answering the trigger unflinching. As to shooting power, it hits as hard and accurately as its more expensive brothers.

Armor Steel barrels, chosen because of their strength and uniformity, have much to do with the popularity of this model. The stock is cut from a fine grade walnut.

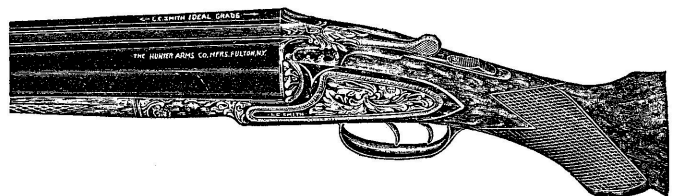

Price **\$60.00**

With Automatic Ejector..... **78.00**

We can supply any other grade of L. C. Smith Gun. Price on application.

L. C. SMITH IDEAL GUN

SPECIFICATIONS : Full pistol grip. Barrels 28 and 30 inch London Steel, 12, 16 and 20 gauges. 12 gauge, 6¾ to 7¾ lbs. 16 gauge, 6¼ to 7 lbs. 20 gauge, 6¼ to 8¼ lbs. 16 gauge, 6¼ to 7 lbs. 20 gauge, 5¾ to 6½ lbs. The "Ideal" is exceptionally popular because suitable for every sort of shot gun work. Thoroughly reliable, accurate and serviceable, this model has won for itself a place in the gun racks of innumerable hunters. A simple design of oak leaves in relief adorns the lock-plates and frame, and adds greatly to the attractiveness of the gun. Although the "Ideal" is not in the least an expensive gun, the art work exhibits the same high character typical of all Smith Guns. As indicated in the specifications, this model is regularly equipped with London Steel barrels. Bored with extreme accuracy and care, they give unqualified satisfaction. First class walnut only is used in stock.

THE BARREL OF THE SMITH POSSESS THE GREATEST TENACITY AND TENSILE STRENGTH.

Price **\$75.00**

DOUBLE BARREL SHOTGUNS—(Continued)

PARKER GUN

Trojan, without Automatic Ejector—A gun of merit at a popular price, and carrying the name of "Parker Bros.", a guarantee of quality.

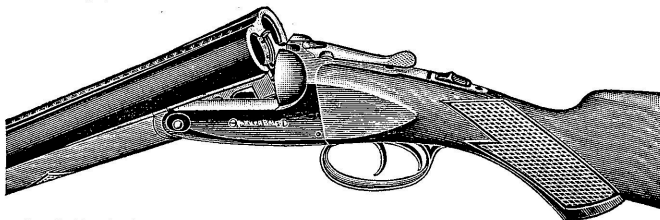

Barrels made of Trojan steel, plain back finish. This steel is manufactured expressly for Parker Bros. stock, American black walnut fore-end and stock neatly checkered. Cap, pistol grip with plain finish. Hard rubber butt plate. Drop about $2\frac{3}{4}$ inches. Length of stock, about 14 inches—made to the following specifications only:

12 gauge, 30-inch barrels, $7\frac{1}{2}$ to 8 lbs., both barrels full choke.

12 gauge, 30-inch barrels, $7\frac{1}{2}$ to 8 lbs., right hand modified, left hand full choke.

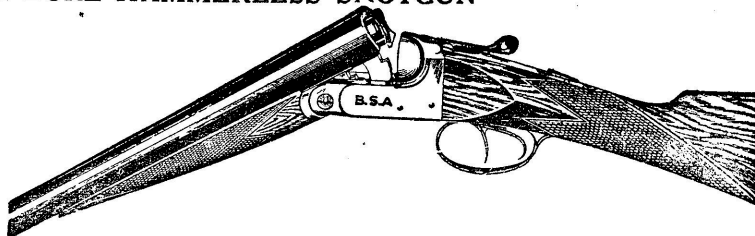

16 gauge, 28-inch barrels, $6\frac{1}{2}$ to 7 lbs., right barrel modified, left barrel full choke. Price..... \$68.50

20 gauge, 28-inch barrels, 6 to $6\frac{1}{2}$ lbs., right barrel modified, left barrel full choke. Price..... \$68.50

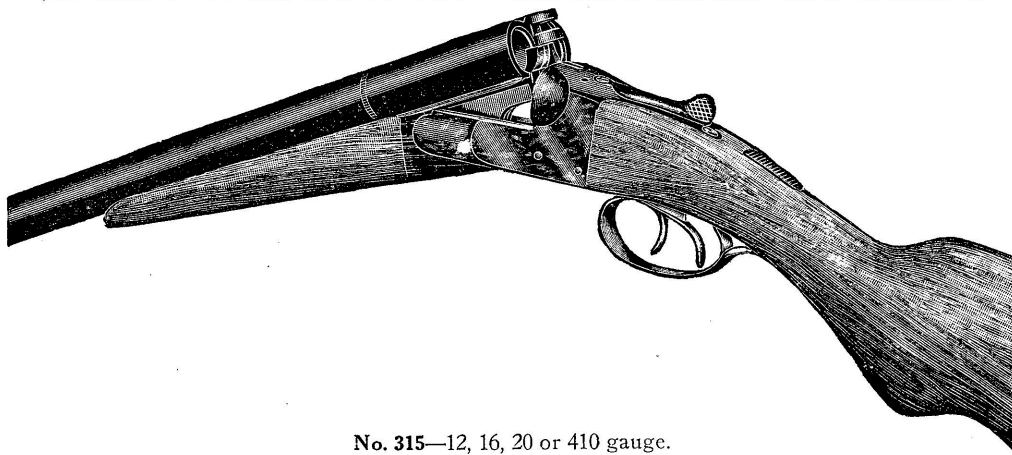

B.S.A. TWELVE BORE HAMMERLESS SHOTGUN

SPECIFICATIONS: Barrels, 30" long, Jessop's fluid compressed steel, lumps formed solid with the barrels, right mod., left choke full. Action—B.S.A. special pattern (Anson & Deeley type), Sears tumblers and other action parts of chrome vanadium steel, body nickel steel, top lever, automatic safety, double bottom lock. The B.S.A. shot gun action is the strongest in the world. Fore-end—Snap-on type, nicely checkered. Stock—Straight hand or half pistol grip, nicely checkered, bend at heel 2", at comb $1\frac{1}{2}$ ", length $14\frac{1}{4}$ ". Weight about $7\frac{1}{4}$ lbs. Balance and trigger pull—specially attended to, to give this B.S.A. Gun the superb handling qualities of the best hand-made gun. Interchangeability. All parts will be strictly interchangeable. Proof and tests—every gun is nitro proved at the official proof house and is carefully tested. Price..... \$80.00

List Price..... \$26.50

DOUBLE BARREL SHOTGUNS—(Continued)

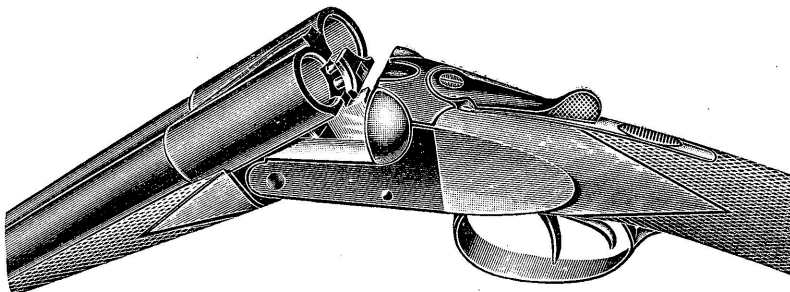

MANUFACTURES FRANCAIS D'ARMES, ST. ETIENNE

The first grade steel Robust Gun has been officially tested at St. Etienne, by the St. Etienne Government factory.

It is tempered by a special process. Gauges 12 to 16 only. Left full choke; right modified. It has an automatic extractor and a walnut grip.

The gun has been officially proved with nitro powder and given the highest pressure. It is certified by the French Government. Like all the hammerless guns the Robust has a safety lock, but one thing in particular about the safety lock of the Robust Gun is that it is made of one piece. This guarantees its good functioning and efficiency. It is also a perfectly balanced gun.

Price \$50.00

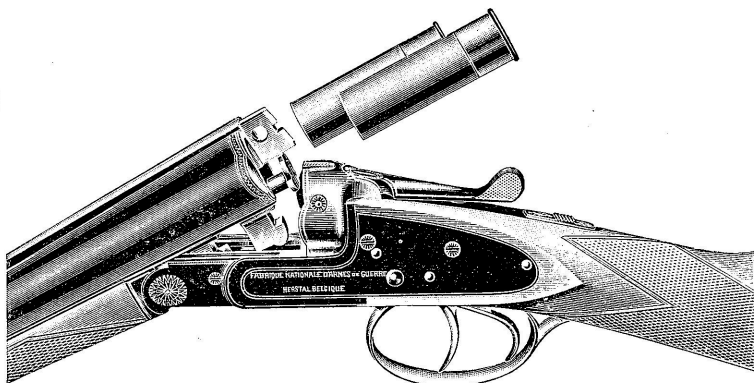

FABRIQUE NATIONALE BROWNING

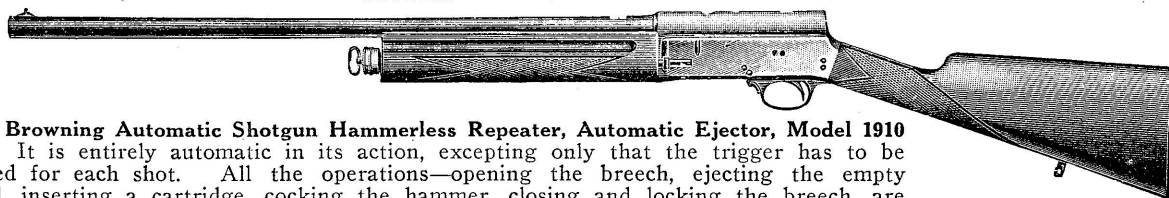

Double Barrel Hammerless Shot Gun, Anson and Deeley pattern, central fire. Purdy Hammers, special (tempered) hardened steel. Full choke in left barrel, semi-choke in right barrel. Barrels 30 inches long. Semi or full pistol grip, walnut stock. Greener cross bolt action through butt of breech.

Price \$55.00

With Automatic Ejector..... 70.00

LATEST REPEATING SHOTGUN

The Browning Automatic Shotgun Hammerless Repeater, Automatic Ejector, Model 1910

It is entirely automatic in its action, excepting only that the trigger has to be pulled for each shot. All the operations—opening the breech, ejecting the empty shell, inserting a cartridge, cocking the hammer, closing and locking the breech, are performed by the Recoil, leaving the arm ready to be fired again by pressure on the trigger. In consequence of its being utilized to operate the mechanism, the recoil is largely absorbed.

The only limit of speed is the rapidity with which the shooter can pull the trigger.

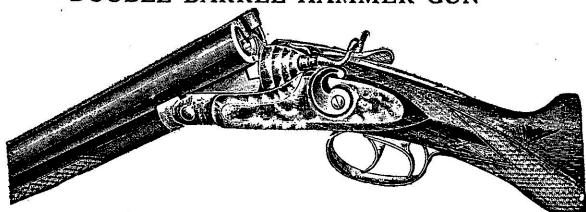

The barrel is made of the famous Cockerill steel, which possesses great strength, elasticity, density, stiffness and wearing quality. All barrels must pass a rigid test.

The magazine holds four cartridges, which, with one in the barrel, makes five shots at the shooter's command. Cartridges remaining in the magazine while any number of shots are fired do not become "headed" at the crimp, so they will enter the chamber freely.

It has two extractors which withdraw the shell positively, even if the head be broken on one side. The hammer is light and quick; the trigger pull is smooth and easy.

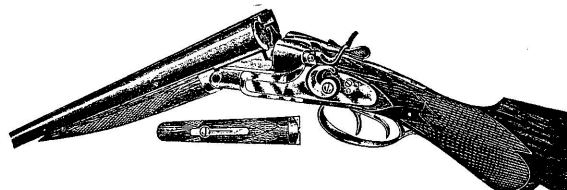

12 gauge and 16 gauge take-down, 28-inch Cockerill steel barrel, English walnut stock, matted receiver, rubber butt, five shots, weight about 7¾ lbs. Price..... \$72.50

DOUBLE BARREL HAMMER GUN

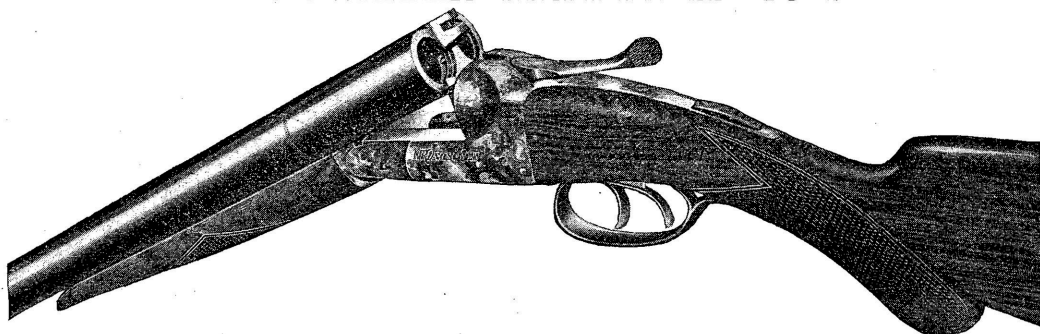

30-inch black steel barrels, left full choke, right moderate, nitro proved, double bolt action, engraved pistol grip or straight. Walnut stock and forearm. Gauges 12, 16 and 20. Price..... \$25.00

DOUBLE BARREL HAMMER GUN

Black steel barrels, left choke, right moderate, pistol or straight grip, walnut stock. Gauges 12, 16, 20. Price \$22.50

DAVIS-WARNER HAMMERLESS GUNS

PREMIER GRADE

These guns are supplied in stock specifications only, which are as follows:

12 Gauge, 28, 30 or 32 inches; right barrel modified, left barrel full choke. Stock, $2\frac{3}{4}$ to 3 inches drop; weight $7\frac{1}{4}$ to $7\frac{3}{4}$ lbs.

16 Gauge, 26, 28 or 30 inches; weight, $6\frac{1}{2}$ to $7\frac{1}{4}$ lbs.

20 Gauge, 26 or 28 inches; weight, 6 to $6\frac{1}{2}$ lbs.

This gun is made of the best materials and finished in excellent style and workmanship, comparing favorably with guns for which double the money is asked.

The Diana or Reinforced Breech consists of a sleeve fitted over the breech of the barrels the full length of the shells, which increases the strength very materially where strength is most required. The barrel lug and breech is all in one forging, which assures a perfect fit of the barrel lug and prevents the gun from ever shooting loose.

Water Table Breech. The flat, or water table breech is fitted to all Davis guns, which is unusual in moderate priced guns and permits close fitting that is not obtained with the round breech.

Barrels. Fine carbonized steel, matted rib and every gun fully tested with extra heavy proof loads.

Stock. High grade polished walnut with pistol grip and fore-end finely checkered.

Action. Top lever extending through slot of rib extension and locking on both sides of frame; spiral main spring, automatic safety and in appearance approaches the high priced imported guns.

Price \$37.50

AJAX GRADE

Same general description as Premier grade, but not so finely finished. Stocks are oil finished in place of highly polished, and plain in place of checkered stock and forearm. Steel butt plate in place of rubber.

Price \$32.00

HY-POWER GRADE

Made only in 12 Gauge, 30 or 32 inch barrels. Specially chambered for 3-inch shells, with bore and choke designed for long range shooting.

Price \$45.00

SINGLE BARREL AND REPEATING SHOTGUNS
HARRINGTON AND RICHARDSON SINGLE BARREL GUNS

H. & R. single barrel gun, fine black walnut stock, hard rubber butt-plate, weight around $5\frac{1}{2}$ to $6\frac{1}{2}$ lbs., according to gauge and length of barrel, takes smokeless or black powder shells. This gun is take-down in the same manner as a double gun by pulling off the snap fore-end and unhooking the barrel from the frame. Gauges 12, 16, 20 and 410.

Price \$13.00
With Automatic Ejector, add50

STEVENS SINGLE BARREL GUNS

SHOTGUNS—SINGLE, No. 115

Barrel—Special "Electro" steel, choke-bored for nitra powder.

Frame—Drop forged and case-hardened.

Action—Top snap, low rebounding hammer, has automatic shell ejector.

Stock—Varnished walnut with pistol grip checked and capped, rubber butt plate, patent snap, walnut forearm checked with metal joint.

Gauges, Length and Price—12, 16 and 20 gauge, 30-inch barrel, weight about $6\frac{3}{4}$ lbs.

Price \$15.50

RIFLES

THE MAUSER MAGAZINE SPORTING RIFLE

possesses the well-known Mauser repeating action, adapted specially to sporting purposes. It is furnished with all the latest up-to-date improvements, such as the automatic cocking arrangement, and flange on the bolt plug to guard the shooter's face against any escaping powder gases in the event of a defective cartridge case.

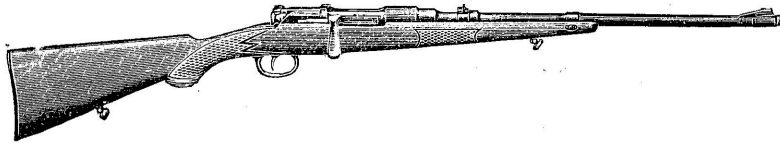

Since in the Mauser system there is not detachable bolt-head, the locking lugs are consequently solid with the bolt. It is, therefore, impossible to fire the rifle with the bolt-head missing, not unless the lugs are properly seated in their respective recesses. The same degree of safety is hardly possible in other systems, where the bolt-head carrying the lugs is detachable.

Weight.—The Mauser sporting rifle, which weighs about 7½ lbs., is a sporting weapon of considerable ballistic properties, as may be judged from the particulars of firing tests, of which details are given below :

The magazine holding five cartridges, is situated beneath the action, it is filled from above by means of the Mauser charger, and receives the cartridges in zigzag order. At the bottom the magazine is closed by a plate which is flush with the stock, and prevents the admission of moisture, impurities, and other foreign matter. The loading or insertion of single cartridges can easily be effected by hand, either with or without the charger. Single cartridges have only to be placed on the platform and pressed into the magazine. The magazine may thus be replenished to its full capacity at any time and at a minimum expenditure of time and trouble. The rifle is supplied with the Mauser leaf sight. The Mauser Sporting Magazine Rifles are made in the following calibres : 7, 8, 9, 9.5 m/m.

Muzzle Velocity			Muzzle Energy		
7 m/m	F.S.	2362	7 m/m	F. lb.	2141
8 m/m	F.S.	2411	8 m/m	F. lb.	2257
9 m/m	F.S.	2296	9 m/m	F. lb.	2885
9.5 m/m	F.S.	2346	9.5 m/m	F. lb.	3486

MAUSER ACTION HIGH-POWER MAGAZINE RIFLE

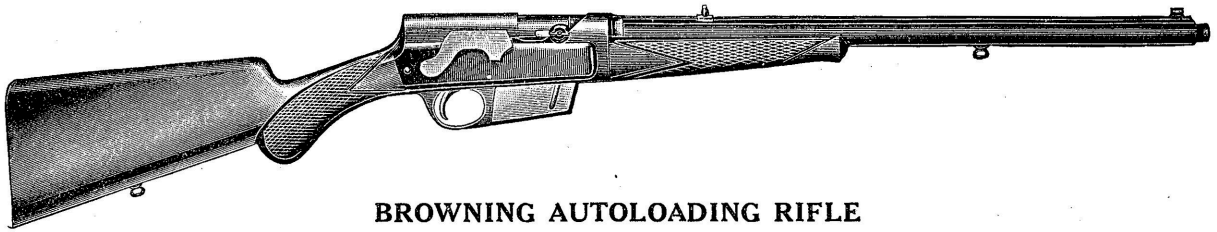

Latest All-British made improved Springfield Lee-Enfield Action High-power Magazine Rifle. Calibre .276, Barrel 26 inches long. Muzzle velocity 2900 ft. per sec. 5 cartridge magazine. Clip loading. Aperture Rear-Sight, sighted point blank 50-100 yards, and adjustable to 1900 yards range, enabling accurate aperture sighting up to this range, if necessary. Aperture is near the eye and slides down between two side protecting wings, and is always ready for point blank shooting up to 100 yards when folded down, and whether up or down does not in any way interfere with the bolt action of the rifle.

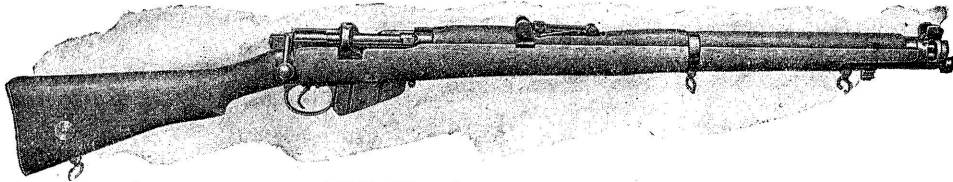

Silver beaded Frontsight, which can be darkened if preferred. Weight of Rifle, complete, about 8 lbs. Sporting pattern as illustrated. Rifles London Proved for High Power Nitro cartridges. These rifles are instantly convertible into single load.

Military Model, price..... \$40.00
Sporting Model, price..... 45.00

RIFLES—(Continued)

**BROWNING AUTOLOADING RIFLE**

Autoloading Rifle, 5 shots, take-down, standard grade. This is an autoloading, hammerless, take-down rifle, and has a solid breech locked by a turning bolt which locks close up against the head of the cartridge as in the latest designs of military rifles. The bolt remains open after the last cartridge in the magazine has been fired. The recoil operates the repeating mechanism and reduces the recoil on the shoulder. The trigger pull is extra light, about 2½ lbs., the balanced trigger prevents the arm from jarring off, should it be accidentally dropped while the safety is unlocked. The rapidity of fire is limited only by the speed with which the shooter can pull the trigger. Pulling the trigger once fires only one shot. Blued steel round barrel, 22 inches long, blued trimmings, plain oil finished walnut stock and forearm, not checkered, rubber butt plate, fitted with sporting rear and bead front sights. 35 R.A.L. calibre. Weight about 7¾ lbs. Price..... **\$75.00**

**LEE-ENFIELD RIFLE**

British Service Pattern, 303 Bore, Short, Mark 111.

The Lee-Enfield Mark 111, Short pattern Service Rifle, as illustrated, is that with which the British Armies in the field were equipped, and it should be well known how quickly it proved its superiority over all others for the trench and short range system of warfare. One of the outstanding features of the L.E. Mark 111 Service Rifle is its remarkable immunity to interference from mud, dirt or sand. Testing at the Works is confined to careful shooting at 100 yards for grouping.

Length over all, 44½ inches, barrel to breech 25½ inches, stock from trigger to centre of butt end 13¾ inches. Magazine, 10 shot.

Weight of rifle, 8 lbs. 11 oz.

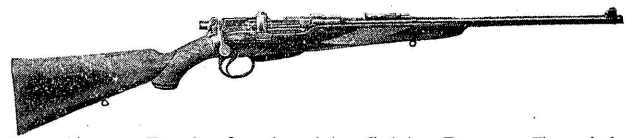

Price..... **\$65.00**

This rifle is extremely accurate and reliable and is confidently recommended as a weapon for shooting medium and big soft-skinned game.

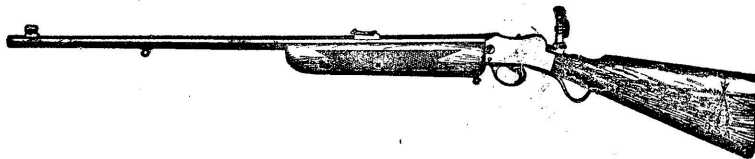

Length over all, 44 inches. Weight, with magazine, 7 lb. Barrel, 25" long. Enfield rifling. Action, Lee-Enfield Bolt Pattern with Safety Catch on Cocking piece. Magazine takes 5 cartridges. Stock nicely figured walnut, with checkered half pistol grip. Length from trigger to centre of butt, 13". Fore-end, walnut, with checkered grip. Sights—Back, 100 yards fixed; folding leaves for 200 and 300 yards, and tangent leaf for 400 to 1,000 yards. Protector. Price

B.S.A. No. 4 SPORTING RIFLE

Lee-Enfield Pattern—303 Bore

Front—Bead, fitted with Cole's Patent Foresight **\$75.00**

**B.S.A. MARTINI RIFLE**

Length over all, 45½"; of barrel, take-down, 29"; stock from trigger, 14¾"; fore-end, 12". Weight, 8 lbs. 9 oz. Distance—Between foresight and open backsight, 19¼"; between foresight and aperture backsight, 32"; balance 6¼" in front of trigger. Price..... **\$41.50**

AUXILIARY BARREL

This barrel is adapted to fit any 12 gauge, 30 or 32-inch barrel, calibre 38-55, price **\$7.00**. Calbre 30-30 **\$8.00**

RIFLES—(Continued)

SAVAGE REPEATING RIFLES

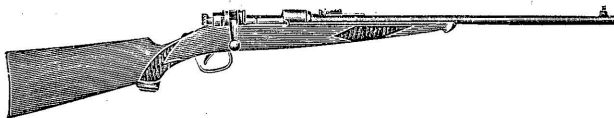

Model 1899, Regular Solid Frame, Calibre .300, .303 and .30-30

Capacity, 6 shots, special high-pressure steel barrels. The automatic revolving and indicating magazine, in which the cartridges lie side by side, prevents bullets touching primers, and the balance does not continually change, as with a tubular magazine, equipped with hammer indicator and positive safety, which locks the firing mechanism. Tight fit of bullet increases velocity and accuracy and prolongs life of barrel by preventing gas cutting. Accurate range for .303 calibre, 1,000 yards, other calibres, 800 yards. Solid wall of steel between barrel and shooter, insures protection from defective shells. Fitted with white metal bead front sight and adjustable flat top sporting rear sight, blued trimmings and American walnut stock.

1899A. 26-inch round barrel rifle only, weight 8 lbs. Price \$46.00

MODEL 1920—Bolt Action Rifle

Calibres—.250-3000 with 22-inch barrel, .300 with 24-inch barrel. The Savage, Model 1920, represents the latest and highest development of the American hunting rifle. The war has put the bolt action rifle on the American map. Before the war it was not popular in this country—largely because it was not altogether understood. But now it is more familiar to the majority of American riflemen than any other form or type.

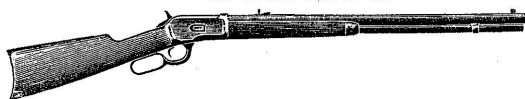

Tapered high pressure steel barrel with integral front sight base, checked pistol grip stock and fore-stock, pistol grip capped, oil finished one-piece stock, corrugated trigger, corrugated steel shot gun butt-plate, white metal front and flat top sporting rear sights, magazine capacity, five cartridges, weight 5 lbs. 14 oz. Price..... \$62.00

CANUCK SINGLE SHOT RIFLES

Famous
COOEY "CANUCK"

The Canuck Single Shot Rifle, take-down bolt action, special safety device prevents accidental discharge, special groove rifling gives greater penetration. One-piece stock with pistol grip, steel butt-plate, bolt can be instantly removed for cleaning, takes all sizes of .22 calibre cartridges. Length over all, 34"; weight, 3¼ lbs. Price, each \$8.50

WINCHESTER RIFLES

Model 1892, Winchester Repeating Rifle

The action of this rifle is very similar to that of the 1886 Model, and is adapted to the use of .44, .38, .32 .25-20 Winchester Centre-fire cartridges. 24-inch round or octagon barrels and full or half-magazines can be furnished on this model. This rifle is light, strong and simple in construction. It can be furnished in "Take-Down" style.

1892, round, solid, prize \$37.00
1892, Carbine, 20-inch round barrel, price..... \$35.00

DETAILED SPECIFICATIONS—Full military stock, oil finish, pistol grip, with bands and swivels for sling. Marine Corps type front sight, wind gauge aperture rear sight, five shot detachable magazine. Barrel, 25" long. Chambered for .22 long rifle cartridges only. Supplied in .22 short on special order only. Double pin. Short hammer throw. Weight about 7 lbs. Price..... \$26.00

MODEL 1914—Hammerless Repeater, .22 Calibre

Solid Breech Hammerless, octagon, 24-inch barrel, American walnut shotgun. Full pistol grip stock with steel butt-plate, bead front and adjustable wind gauge rear sight. Positive action—short, quick and easily operated. Tubular magazine holds twenty .22 short, seventeen .22 long or fifteen .22 long rifle cartridges. Length taken-down, 27½ inches. Weight, 5¼ lbs. Price \$25.00

Winchester Model 1894 Repeating Rifle

Made for .25-35 and .30 Winchester Centre-Fire Smokeless, .32-40, .32 Winchester Special and .38-55 calibre cartridges.

This model is popular everywhere because it is a strong, lightweight and easily operated gun. The "Take-Down" style can be fitted with interchangeable barrels, thus making it possible to use several different calibres of cartridges in the same gun by simply changing the barrel. The Model 1894 can be furnished with 26-inch round or octagon barrel and full or half-magazine. .32-40 and .38-55 calibres. Model 1894. Round barrel, solid frame. Price..... \$44.00

RIFLES—(Continued)

SAVAGE MODEL 1921 REPEATING SHOTGUN

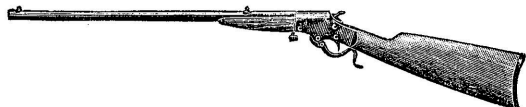

Here's a Shotgun that fills the bag and smashes the blue rocks with the same sureness and precision that your Savage hi-power rifle knocks over the big game.

Strength and an enduring accuracy are birthrights of the Savage Shotgun. Just notice that the barrel is made of the same high-pressure steel used for Savage hi-power rifles—a barrel that will retain its original accuracy almost indefinitely.

Model 1921 Savage hammerless solid breech, solid top-side ejection, take-down, standard 12-gauge, 30" high pressure smokeless steel barrel, pistol grip, positive top tang safety, moving parts enclosed, solid rubber butt-plate, receiver channelled and matted in line of sight, drop at the heel, 2¾" drop at the comb 1¾", magazine capacity, 6 of the 2.58" shells and in the chamber, weight 7½ lbs. Full choke, or with choke and cylinder when specified. Price \$60.00

Grade 1921-B Standard Grade with raised matted rib, 12 gauge. Same specifications with raised solid rib. Price \$70.00

STEVENS "MARKSMAN" No. 12

Stevens "Marksman" No. 12 is a take-down made in 22, 25 or 32 calibre; weight about 4 lbs.; 20" round barrel, with positive extractor, shotgun butt, rubber butt-plate, bead front and open rear sight. Price, each \$11.90

Winchester Model 1906 is a .22 calibre repeating rifle, for .22 short and .22 long rifle, rim-fire cartridges. It is a compact, lightweight take-down rifle, 20" round barrel, sporting front sight and adjustable open rear sight, rubber butt-plate and the magazine holds 15 cartridges. Weight of rifle about 5 lbs. Price, each \$25.00

STEVENS "FAVORITE" No. 17

Stevens "Favorite" single shot, .22 short or .22 long rifle, and also supplied in .25 or .32 long rim-fire cartridges. Barrel 24" long, half octagon, hardened case, plain lever, automatic ejector in regular .22 calibre only, plain extractor in other calibres, walnut shotgun butt, rubber-plate, walnut fore-end. Weight about 4¼ lbs. Price, each \$13.50

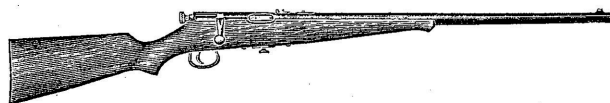

MODEL 1904 .22 SAVAGE JUNIOR RIFLE

Built sturdily of the best materials—the Savage Junior .22 is all accuracy and endurance.

The parts of the rifle are few, large and strong, and coil springs are used throughout. The very low price at which the rifle is sold is due to the simplicity of the action and the ease of the manufacturing of the parts.

18" round barrel, shotgun butt and steel butt-plate, scroll trigger guard, blued steel bead front and adjustable flat top rear sight, take-down style. Weight about three pounds. Price \$9.25

THE SAVAGE SPORTER .22 REPEATING RIFLE
MODEL 1922

A .22 Sporting Repeater with the gilt-edge accuracy of the finest target rifle.

Here's a rifle with the precision of the finest small-bore range rifles combined with the most modern features found in up-to-date sporting models.

The Savage Sporter .22 Repeating Rifle is built along the same sturdy lines as the famous Savage Model 1920 Bolt-Action High-Power Rifle. Strong and durable—yet light and lively. You will love the clean graceful lines and the beautiful balance of this rifle.

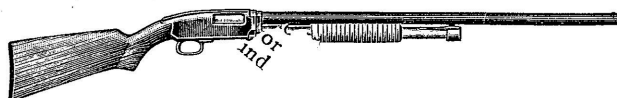

23" round barrel, genuine American walnut stock, oil finish, pistol grip, open sporting sights, five-shot detachable box magazine, chambered for .22 long rifle cartridges only, checked full-curve trigger. Weight six pounds. Price 23.00

STEVENS No. 26

Stevens "Crackshot" take-down No. 26, 18" round barrel, blued frame, carbine butt-plate, knife blade front and open rear sights, adapted for C.B. caps, .22 short, .22 long or .22 long rifle, and they can also be supplied in .32 long rim-fire cartridges. Weight 3¾ lbs. Price, each \$9.50

NEW WINCHESTER MODEL 1912 HAMMERLESS—12 and 20 GAUGE TAKE-DOWN

Model 1912, 12 gauge, 28 and 30-inch barrel, nickel steel, modified cylinder or full choke, chambered for 2¾-inch shells, plain walnut pistol-grip stock, 13¾ inches long, drop at comb 1 11/16 inches, drop at heel 2½ inches, rubber butt plate, slide handle, weight about 7¼ lbs., 6 shots. Length over all, 48⅞ inches. Price \$63.00

Model 1912, 20 gauge, 25-inch nickel steel barrel, chambered for 2½-inch shells, plain walnut pistol grip and action, slide handle, length of stock 13⅝ inches, drop at comb 1½ inches, drop at heel 2½ inches, rubber butt plate, weight about 5¾ lbs., 6 shots. Price \$63.00

RIFLES—(Continued)

WINCHESTER MODEL 1890

**.22 Calibre Repeating Rifle**

This handsome little rifle is made to handle .22 short, .22 long rifle or .22 Winchester Rim-Fire cartridges, and weighs but 5¾ lbs. The barrel is furnished in octagon style only and is 24 inches long. This rifle is a "Take-Down", and, on account of its small size and weight, can be easily packed or carried. It is particularly desirable as a lady's gun, because of the ease with which it can be operated. Price **\$30.00**

WINCHESTER MODEL 1895 RIFLE

This is a six-shot repeating rifle with a box-magazine, and is adapted to the use of the .30 U.S. Army, .30 Government, Model 1903, .303 British, .35, .405, Winchester Centre-fire cartridges. The barrel is made of nickel-steel designed especially to handle high-power smokeless-powder ammunition.

Special Notice—The Model 1895 Winchester is now made in "Take-Down" Model as well as the Solid Frame. 1895 Round (Nickel-Steel Barrel). Price..... **\$58.00**
1895 Carbine. Price **\$7.00**

REVOLVERS

SINGLE ACTION ARMY, \$42.00

**Solid Frame
Rod Ejection**

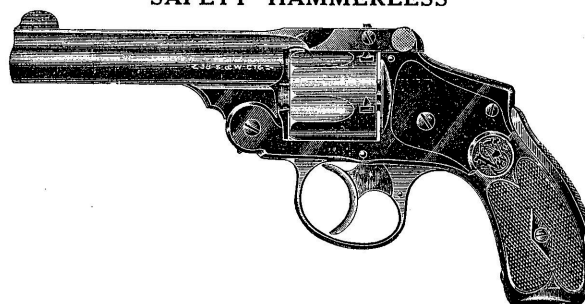

For the following cartridges:

.32-20, .38-40, .44
Russian, .44-40, .44
S. & W. Special, .45
Colt.

Six shots. Weight, .45 calibre; with 4¾-inch barrel, 37 ounces. Length of barrels, 4¾, 5½ and 7½ inches. Length over all, with 4¾-inch barrel, 10¼ inches. Finish—Case-hardened frame, blue barrel and straps, or full nickel-plated. Rubber stocks.

SAFETY HAMMERLESS

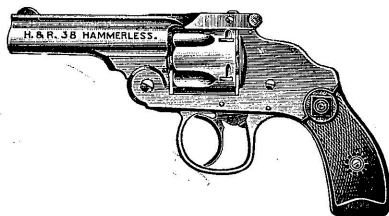

In the new Hammerless Safety Revolver the liabilities to accidents are minimized; first by placing the hammer entirely within the lock-frame so that no external force can affect it, and, second, by so arranging the trigger and safety lever that the hammer cannot be operated except at the instant of deliberate firing.

Made in nickel-plated finish with automatic shell extractor, rebounding lock and safety attachment. .32 calibre only, 3-inch barrel, rubber stock..... **\$30.00**

HARRINGTON & RICHARDSON'S HAMMERLESS REVOLVERS

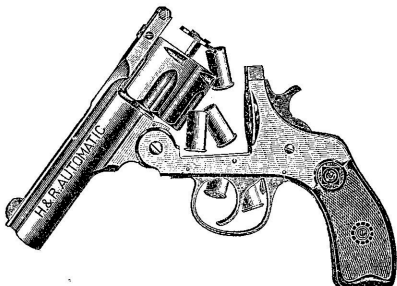

**.32 or .38 Calibre,
Adapted to
S. & W.
Cartridges**

.32 calibre, 5-shot, 3-inch barrel, 13 oz., central fire. Price **\$12.00**
.38 calibre, 5-shot, 3¼-inch barrel, 13 oz., central fire. Price..... **\$13.00**
Blued finish, extra **.50**

HARRINGTON & RICHARDSON'S "AUTOMATIC" REVOLVERS

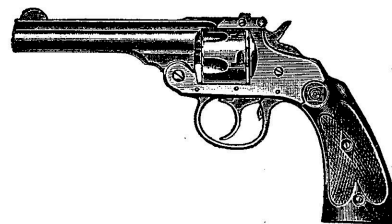

.32 and .38 calibre. H. & R. Automatic Shell Ejectors have forged steel barrels, and are double-action, full nickel-plated, with rubber stocks, and all the working parts are steel, made in .32 and .38 calibre, using S. & W. central-fire cartridges. These revolvers have been on the market so long that they are now classed as standard goods. .32 calibre, 6 shot; weight, 18 ozs.; length, 3¾-inch barrel. Price..... **\$12.00**
.38 calibre, 5 shot, weight 17 ozs., length 3¼-inch barrel. Price **\$12.00**
Blued finish, extra **.50**

HARRINGTON & RICHARDSON'S SPECIAL

**Target Grip
Revolvers
.22, .32 & .38
Calibre**

Is automatic shell ejecting, adapted to .22 short or long rim-fire or .32 and .38 S. & W. centre-fire automatic shell ejector, 6-inch barrel, blued. The Special Target Grip makes this model a splendid target pistol. Price **\$14.00**

SMITH & WESSON REVOLVERS

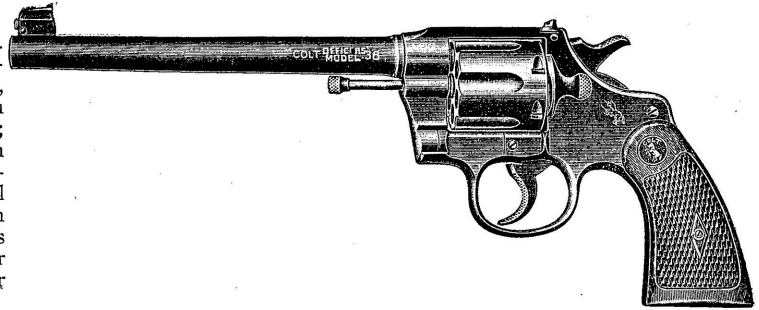

Smith & Wesson New Service, calibre .455 and .38 Special, 6" barrel, blued finish, checked walnut stock, jointless solid frame, simultaneous ejection. Price **\$39.00**

IMPORTANT.—In order to purchase a Pistol or Revolver, it will be necessary for you to obtain a permit from your Chief Constable, Police Magistrate, Member of the R.M.P., or any other official authorized to give same. British subjects do not require permit to purchase a Rifle or Shotgun.

IMPORTANT.—No permit is required for changing any Firearm.

OFFICERS' MODEL TARGET, \$51.00

Jointless solid frame, simultaneous ejection. The following cartridges can be used interchangeably: .38 Long Colt, .38 Colt Special, also .38 S. & W. Special. Six shots. Length of barrels, 6 and 7½ inches. Finish, blued only; checkered walnut stocks. Weight, with 6-inch barrel, 34 ozs. Strap and trigger finely checkered. Action—Hand finished and without equal for smoothness and excellence of pull. Length over all, with 6-inch barrel, 11¼ inches. Sights—Front sights adjustable for elevation; rear sight with adjusting screw, adjustable for windage.

MARBLE'S GAME GETTER GUN

Target Rifle or Pistol—Big Game Gun—Shotgun.
The only all round Arm.

The Marble Game Getter is made to use the following cartridges: Rifle .22 short, .22 long, .22 long rifle rim-fire shot, .44 short or .44-40 round ball centre fire.

The Game Getter can be safely used with smokeless powder.

The .22 and .44 bullets shoot to the point blank range of 50 feet with sights set the same. There is very little recoil on account of .44 barrel being smooth bored and not choked. Striker is held either up or down or "safe" by a concealed spring and plunger, but it is easily moved with finger or thumb, or both. Can never work loose or drop down. Gun is opened by pulling backward on front of trigger guard. Cannot be "broke" accidentally.

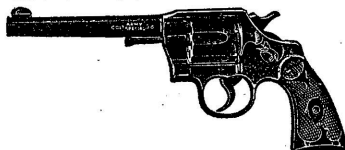

Folding stock, made from cold-rolled sheet steel nicked. To place in rigid position swing it backwards, pulling back on sliding lock. Stock is locked by a very strong sliding lock which enters a notch ⅛ inch deep at base of grip. Specifications—Barrels, round, blued. Trigger, single. Stock, steel, nicked. Holster, leather. Frame, drop-forged, blued. Grip plates, walnut.

No. M21—12-inch barrels, complete with holster.	
Price	\$28.50
No. M21—15-inch barrels, complete with holster.	
Price	\$30.00
No. M21—18-inch barrels, complete with holster.	
Price	\$32.00

ARMY SPECIAL, \$37.00

**Jointless.
Solid Frame
Simultaneous
Ejection**

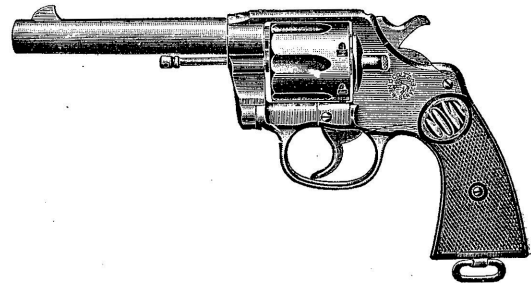

For the following cartridges:

.32-20 Rifle Cartridges, .38 Long Colt, .38 Short Colt, .41 Long Colt, .38 Smith & Wesson Special, .38 Colt Special, .41 Short Colt.

Six shots. Length of barrels, 4, 5 and 6 inches. Length over all, with 6-inch barrel, 11¼ inches. Finish—Full blued or full nickel-plated rubber stocks. (Checkered walnut stocks furnished at \$3.50 set, extra). Weight, with 6-inch barrel, 35 ounces.

COLT REVOLVERS

The experience of more than half a century is embodied in the products of the Colt's Patent Fire Arms Manufacturing Company. The high standard in quality to which the success of these arms from the start was due, has been strictly maintained, and Colt's Revolvers have long been adopted as the Standard Government Arm.

New Service, price **\$40.00**

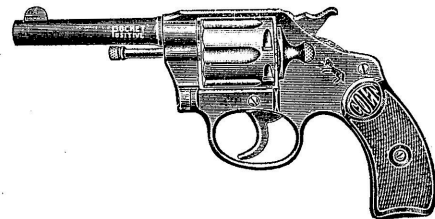

Jointless solid frame, simultaneous ejection.

For the following cartridges:

.38-40— .44 S. & W. Special44 Russian
.44-40—455 (Eley's)45 Colt

Six shots. Length of barrel, 4½, 5½ and 7½ inches. Finish—Blue or nickel-plated. Rubber stocks. Weight, with 4½-inch barrel, 40 ounces. Length over all, with 4½-inch barrel, 9¾ inches. A heavy, particularly strong serviceable arm made in large calibres. Adopted by military organizations and mounted police. A most excellent weapon for hunters and campers.

POLICE POSITIVE, \$34.00

Jointless Solid Frame—Simultaneous Ejection

For the following cartridges: .32 Short or Long Colt, .32 Colt Police Positive, .32 S. & W. Short or Long, .38 Colt Police Positive, .38 Smith & Wesson.

Six shots. Length of barrels—Calibre .32, 2½, 4, 5 and 6 inches. Calibre .38, 4, 5 and 6 inches. Finish—Blued or nickel-plated. Weight, with 4-inch barrel, 20 ounces. Length over all, with 4-inch barrel, 8¾ inches.

REVOLVERS—(Continued)

NEW MODEL SPANISH REVOLVER SWING CYLINDER

High grade drop forged steel used throughout, and thoroughly guaranteed. Solid frame, cylinder swings out to the left. Removable plate on the right side of the frame exposes the entire mechanism. Weight about 2 lbs., calibre .38 special and .32-20 (32. Winchester). Length of barrel, 4¼, 5 and 6 inches. Blued or nickel-plated. Price \$29.00

CLEANING RODS AND EQUIPMENT

A. G. PARKER BIRMINGHAM—"UDLIKA" BALL BEARING HANDLE ROD

The Rod has a strong hardened and tempered steel core covered with celluloid, which prevents rust and saves the barrel from possible damage. It is equipped with a detachable brass trueform jag which is entirely covered with a flannelette patch, and consequently cannot touch the rifling. Price, each \$2.75

Our C.A.G. Rod has a hefty ball bearing handle, a smooth hardened and tempered steel shaft on which we have formed a novel flannelette patch carrier with a sure grip. We guarantee the ball bearing handle to stand better than any fixed handle even if hammered. Price \$3.25

Young's .303 Cleaner and Rust Preventer is still the best rifle oil. A rifle well cleaned with it needs no further attention. Price, per bottle..... \$.35

PARKER'S BARREL SCOURERS

.22 Calibre

The "Scourer" pattern brush was first introduced by us for .303 rifles in the year 1899, and was an instantaneous success. It shifted hard fouling and rust that had hitherto defied ordinary methods of cleaning and for this purpose is still the pre-eminent brush.

Its only drawback compared with the ordinary pattern brush is that it must not be pulled back if allowed to pass out of the barrel so that in cleaning .22 calibre rifles it is advisable to keep the breech end closed and clean from the muzzle end by using a rod guide to prevent damage to the rifling at the muzzle caused by friction of the rod.

No. B5, Steel Scourer

No. B5½, Flexible Metal Scourer

45c.

THE NEW FLEXIBLE METALLIC BRUSH

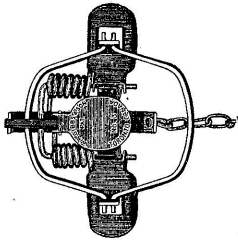

Wire Brushes up to the present have been made either of steel or brass, which are practically spoiled after once or twice in use owing to the propensity to get matted. This was overcome by making the brushes of long drooping bristles, now well known as "scourers", but as they cannot be pulled back again if allowed to pass out of the barrel the ordinary brush has an advantage in this respect. We now supply .22 calibre Wire Metal which we guarantee not to scratch the mildest steel.

Flexible Metal Brush

No. B11

35c.

"GIBBS" TWO TRIGGER TRAP**Not Just Feet—The Whole Pelt Every Time**

The "Gibbs" Two Trigger Trap is two traps in one. The inside trap catches by the leg the same as an ordinary trap gets the grip over the body that makes escape impossible.

This means that every catch is yours. You will not find any twisted-off feet in a Two Trigger Trap. Every catch will stay caught until you get the pelt.

The springs in the Two Trigger Trap will not break. No spring breakage and no escaped animals is simply another way of saying more pelts and more dollars for you.

This trap made for muskrat, mink, marten, etc., which it will catch and kill. It will catch and hold coon, skunk, possum, etc.

The Two Trigger Trap is guaranteed

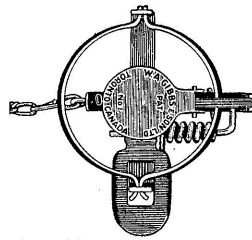

To prevent "wriging off".

To have springs that will not break.

Not to injure the pelt.

And it does not have to be set to drown.

To make the most money in trapping make the right choice of traps. You can't go wrong in getting Two Trigger.

"GIBBS" SINGLE GRIP TRAPS**Smaller—Lighter—Stronger**

"Gibbs" Single Grip Traps are coil spring traps of the jump trap type.

They smaller and lighter than other traps for the same size animals, and also have much more strength. This strength is due to their strong coil springs and the carefully worked out design of the trap.

The springs in "Gibbs" Single Grip Traps are guaranteed not to break, and while they are very strong they are also very flexible, which makes the trap easy to set.

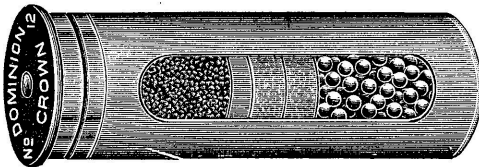

Make a test of their gripping power and compare it and the way that they are made with other traps. You will surely agree with us that they are real trappers traps. Small, light, strong, and easy to set.

SPORTSMEN'S SUNDRIES

"MAGNAPOLE" COMPASS

The "Magnapole" is the limit of perfection in the open-face style of compass with bar needle.

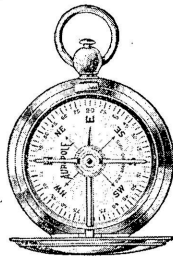

The solid and delicate bat needle of the "Magnapole" is carefully magnetized and tempered, so that it will retain its magnetism indefinitely, producing a permanent, accurate and guaranteed compass. The jewelled centre is carefully adjusted and with care will last a lifetime, while the aluminum dial enables the divisions and figures to be easily read.

The improved idea of lifting the needle off the point when not in use also prevents dust and moisture getting to the inside, making a thoroughly accurate and guaranteed instrument at a price within the reach of all. Price, each **\$2.25**

"AURAPOLE" COMPASS

In the selection of a compass, many people prefer styles having needles of "barr" pattern to those of flat design, as used in the "Gydawl" and "Leedawl" instruments. Bar needles are to be preferred, first on account of their sensitiveness, secondly, because they can be magnetized much more strongly, and thirdly, because they can retain their magnetism indefinitely. The needles of "Aurapole" compass are heavily magnetized, delicately balanced and extremely sensitive. Centres are jewelled and a stop lifts the needle off centre point when lid of case is closed. Dial is of aluminum. "Aurapole" Compass in this model, white metal hunter case, strongly hinged. No. 2915 compasses were used during the war by the Canadians in France, and we have secured a limited quantity of them. They are all brand new and packed in the original boxes, and although the regular price is \$4.00 we can offer them at **\$2.25**

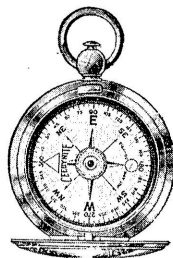

"CEEBYNITE" COMPASS

How often during a sojourn in the woods in crossing a lake at night, campers and travellers have difficulty in finding direction. It may be so dark that the compass cannot be seen, and so windy that matches cannot be lighted. The "Ceebynite" solves the problem.

The North and South points of the floating dial are treated with a radioactive compound (permanently luminous) which enables them to be seen at night.

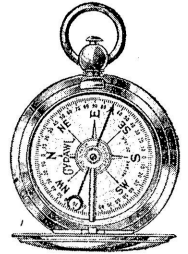

The action of this material is permanent and does not have to be exposed to sunlight during the day to make it phosphorescent, as do other compounds. "Ceebynite" compasses in thin-model, white-metal hunter case, strongly hinged. Price, each **\$4.00**

"GYDAWL" COMPASS

For a low priced compass in a hunter-style case, the "Gydawl" cannot be beaten. The needle is of the flat, half-blued steel type—the same as in the "Leedawl"—has a jewelled centre and a stop which, directly the lid is closed, automatically lifts the needle off the special steel point on which it operates. This means practically everlasting life to the compass, for it will remain delicate and sensitive as long as the needle is lifted off the centre when not in use. The dial is of burnishable silvered metal.

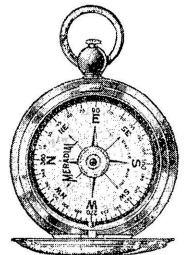

"Gydawl" compasses in thin-model, white-metal hunter case, strongly hinged. Price, each **\$3.00**

"MERADIAL" COMPASS

Floating-dial compasses are very popular with hunters and those who spend a great deal of time in the woods. Technically speaking, they are the most satisfactory of all compasses, as the dials are fitted to the needles and float with them. Their advantage over "Needle" styles is obvious. When the dial comes to rest, it gives accurately all magnetic directions. Centres are jewelled and the dial and needle are lifted off centre point when case is closed.

"Meradial" compasses are mounted in thin-model, white-metal hunter case, strongly hinged. They can also be supplied in gold-filled case. White Metal case **\$3.00**
Gold-filled case **7.00**

"USANITE" COMPASS

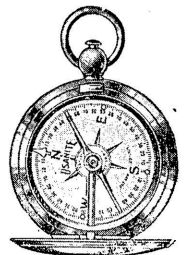

Some people, more especially men, prefer radium compasses fitted with needles similar to the "Aurapole" in place of the floating dial, as in the "Ceebynite".

To fill this demand the "Usanite" has been created and put on the market. The north-pointing end of the needle is almost completely covered with radium material, while a smaller portion is applied to the south-pointing end.

The cardinal points (N.E., S. and W.) of the compass dial are similarly prepared, the N. point being distinguished by an arrow head, the other points being represented by dots.

The radium is of the same high grade as that used on other "Tycos" products. "Usanite" compasses have white-metal hunter case, strongly hinged. They can be supplied also in gold-filled cases.

White Metal Case, each **\$4.50**
Gold-filled Case, each **8.00**

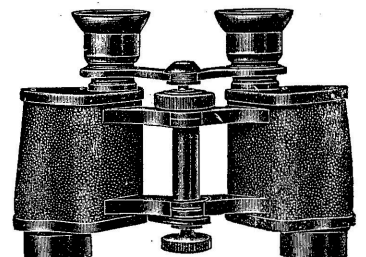

PRISMATIC BINOCULARS

We keep the finest stocks of Prism Binoculars and Field Glasses in Montreal. Every glass guaranteed. All Prismatic Glasses are fitted with neck slings, saddle made cases with shoulder straps complete. All these glasses are offered at very attractive prices, and our customers can rely on absolute satisfaction, both in quality and price, in their purchases.

PRISMATIC BINOCULARS

Prism Binoculars 5 x 20. An ideal prismatic glass, very compact, in a beautiful leather case, good for field and opera. Price **\$16.00**

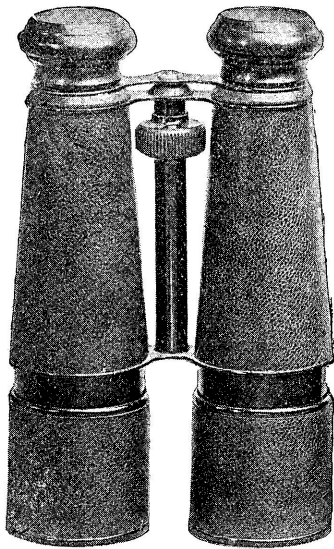

SPORTSMEN'S SUNDRIES—(Continued)

OBJECTIVE PRISM MONOCULARS

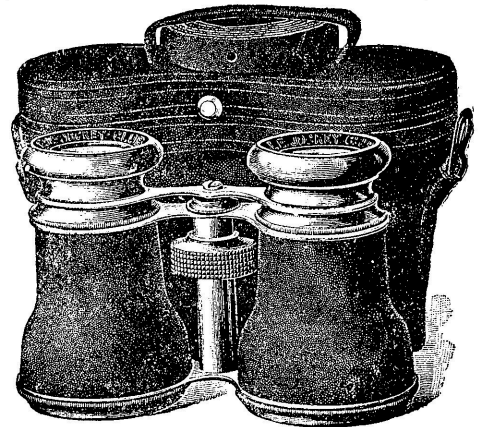

The 4 power, 20 millimeter, objective prism monoculars will accomplish practically all that a binocular will. They are practically adapted to the requirements of the gunner and sportsmen as being damp and dust-proof and finished in a dull grey that will not glint, glisten or refract sunlight, thereby alarming game, and may be carried in the blouse pocket. Complete with plush case. Price \$6.00

No. 210.—A very fine pair of "Opera Glasses" in a dull silvered metal embossed, best quality, gilt fittings throughout, achromatic crystal lenses, brilliant definition, perfectly adjusted to the highest degree of scientific accuracy. In silk poplin draw bag. Price \$4.00

The "Jockey Club" Opera and Field Glass Binocular, great magnification power, colorless achromatic optical lenses, perfectly adjusted and simultaneous screw adjustment, large angle of view, in sling case, a great bargain \$5.00

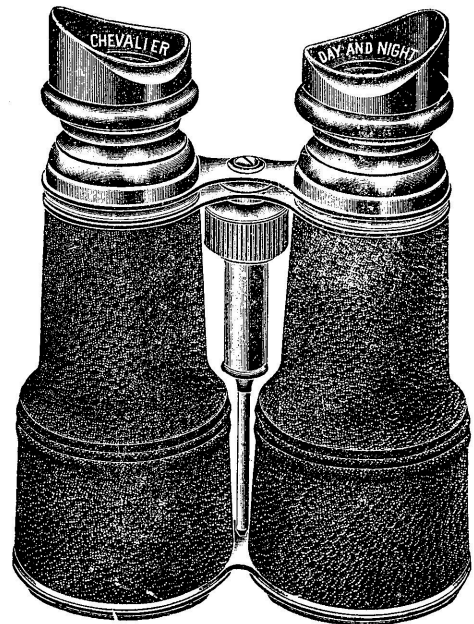

No. 206.—19 ligne, "Chevalier" Field Glass, high shape, black Morocco covered, japanned mounting. In a stiff carrying case with shoulder strap. Price \$7.00

Large field of view, brilliant definition, extremely long range, damp and dust-proof, independent eye-piece focussing adjustment, marked stereoscopic effect; the workmanship is of the highest class, well balanced optical qualities, suitable under all conditions of atmosphere, there is no finer glass procurable, and we can thoroughly recommend them to the most critical observer. In solid English-made leather sling case. Price \$22.00

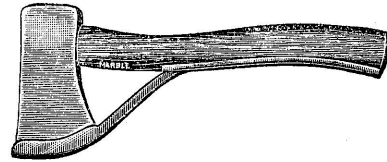

No. 211.—24 ligne. "Chevalier" Field Glass. Tan leather covered bodies, imitation sunshades, nicked and gilt mountings. In soft tan carrying case with shoulder strap. Price \$7.00

SPORTSMEN'S SUNDRIES—(Continued)

Camp and Pocket Axes—Marble Safety Pocket Axes

No. 2 Guarded

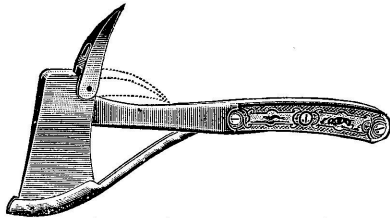

No. 5 and 6 Guarded

It is large enough to fell a tree and small enough to carry in the pocket. A perfect axe for "blazing", clearing a trail, setting a tent, and is as necessary in the woods as a gun or knife. The nickel-plated spring-hinged guard is lined with lead and folds into the handle. The blade is made of tool steel, carefully tempered and sharpened. The metal handles are drop-forged and will never break. The side plates are of rubber; the wooden handles are of selected hickory and have nickel-plated guard and receiver.

Weight	Length		
No. 2 steel handle, 20 oz.—11 in.	Solid steel blade, $2\frac{3}{8}$ x 4 in.	\$3.50
No. 3 steel handle, 27 oz.—12 in.	Solid steel blade, $2\frac{1}{4}$ x $4\frac{3}{8}$ in.	3.75
No. 5 Hickory handle, 16 oz.—11 in.	Solid steel blade, $2\frac{1}{2}$ x $4\frac{1}{2}$ in.	2.25
No. 6 Hickory handle, 22 oz.—12 in.	Solid steel blade, $2\frac{7}{8}$ x $4\frac{3}{4}$ in.	2.50

SAFETY AXE WITH PICK

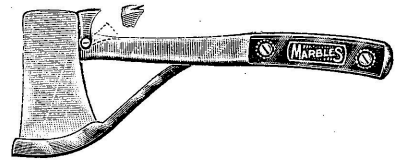

The pick can be securely and instantly locked either up or down. It will stand unlimited service and will be found handy when climbing.

When folded, the axe head can be safely used as a hammer. Axe No. 2 with Pick. Price..... \$5.00

SAFETY AXE WITH CLAW

This nail claw is strong enough to pull a ten-penny nail from a seasoned hemlock plank. One can get at and pull a nail with the axe blade and claw, that could not be removed with a hammer alone.

No. 2½. Axe No. 2 with claw. Price..... \$4.00

IDEAL HUNTING KNIFE

This was the first knife designed by Mr. Marble, and on account of its quality, combination of several excellent features and beauty of design and finish, has won for him a world-wide reputation as maker of the highest quality of hunting knives.

The blade is adapted to sticking and skinning. It is oval-ground at back of point for chopping bones and other hard substances. Beware of imitations, sometimes marked Marble Pattern. Buy only those marked on heel of blade "Marble's" or M. S. A. Co., Gladstone, Mich., U.S.A. Tube Sheath No. 34 Covering Blade and Handle or Hillsheath No. 39 Covering Blade Only and Protector Furnished with each Knife.

Leather Handle No. 41 or 45

Blade—5 inch	\$3.25
Blade—6 inch	3.50
Blade—7 inch	3.75
Blade—8 inch	4.00

Stag Handle No. 42 or 46

Blade—5 inch	\$4.00
Blade—6 inch	4.25
Blade—7 inch	4.50
Blade—8 inch	4.75

Marble's Woodcraft Hunting Knife

Blade $4\frac{1}{2}$ in., hands $3\frac{3}{4}$ in., weight 5 oz. This knife meets all requirements. It is suitable alike for cleaning, skinning and sticking. The $4\frac{1}{2}$ in. blade is desired by most experienced hunters. Handy to carry and handle, with no superfluous weight to tire the hand or inconvenience the worker.

No. 49—Leather handle, with sheath	\$2.50
No. 50—Stag handle, with sheath	3.50

Marble-De Weese

Designed by Dall DeWeese for use on expeditions after big game, where every item of the outfit has to be figured down to the lightest and most compact form possible. It has a dull saw back on which the thumb is placed when skinning, or cutting hard substances. When sticking, the little finger should be doubled up, letting the end of handle rest against it. This takes the place of a hilt. Blade 4 inches, Stag horn handle, $3\frac{3}{4}$ inches, weight 3 ounces. No. 62, with sheath..... \$2.25

SPORTSMEN'S SUNDRIES—(Continued)

**MARBLE
FOLDING
FISH KNIFE**

Dotted lines show blade folded within folding handle. The blade is made sharp at back of point for ripping, and the back is an excellent fish scaler. It is a good all-round pocket knife for sportsmen, ranchmen and stockmen. As shown by the dotted lines, the blade when folded is entirely protected by the unique but simply constructed and operated silver handle. When open it is as safe and rigid as a one-piece knife.

No. 78—Blade 4 inches, weight 3½ ounces. Price..... **\$1.75**

We have only space in our catalogue to illustrate and describe a portion of the Marble line. If you do not see what you require, in our catalogue, we will send you, on application, a complete Marble catalogue.

MARBLE SAFETY HUNTING KNIFE

These knives will appeal especially to that class of woodmen and sportsmen who object to a sheath knife and yet want a knife that is heavy, strong and rigid. They have a long blade with a short handle. Utilizing the extension guard as a safety lock when knife is open. The guard as well as the blade is held in position by a spring when either open or closed. The blades have bone chopper at back of point. The hilts, one on each side of the blade, and the holster and lining are of nickel silver. Side plates are of genuine stag horn.

No. 83—Blade 4½ inches, weight 4 ounces. Price..... **\$4.75**

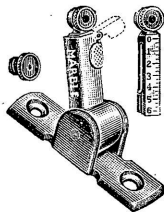

No. 85—Blade 5 inches, weight 6 ounces. Price..... **5.25**

**MARBLE SIMPLEX
SIGHTS**

For .22 Calibre Rifles only. Note low price.

The stem can be set very quickly in any position. The lock holds stem rigid at any elevation. Stem cannot drop out even when lock is open, but it can be removed when desired. A large and small aperture disc is furnished with each sight.

The sight is held firmly by an inside spring in the proper position for shooting. When ordering state make of rifle. Price **\$2.25**

**MARBLE STANDARD IVORY OR GOLD BEAD**

They are made for all American rifles in 1-16, 3-32 and ½ inch ivory. Price **\$1.25**

**MARBLE'S
TRAILMAKER
KNIFE**

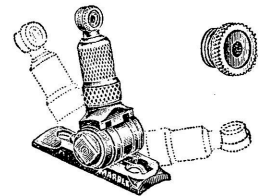

No. 56—Blade 10 in., handle 5 in., weight 15 ounces. There is not one cutting tool that will serve as many purposes as the "Trailmaker". A wonderful amount of work can be accomplished with it when blazing or cutting a way through thick undergrowth or cane brake. Tent poles, light firewood and trees up to several inches in diameter can be cut as quickly as with an axe. Price **\$6.50**

**MARBLE FLEXIBLE
REAR SIGHTS**

For all standard American Rifles except Remington Model 12 and 14 Repeaters.

Important Features and Advantages :

1st—Automatic joint. When ever the sight is struck on front or back the coiled spring in the hinge brings it instantly into position for shooting. 2nd—Advantage over Receiver Sight; can be used on rifles with long firing bolts to better advantage than Receiver Sight, being closer to the eye. 3rd—Elevation Lock. The lower sleeve, when turned up against the elevating sleeve, prevents it from being turned and holds the disc stem true and rigid at any elevation. 4th—Interchangeable Discs. All Regular, Target and Sidelight Discs can be used. 5th—Point Blank Adjustment. The screw in bottom of disc stem, permits a quick change of point blank range without tools. State make, model and calibre when ordering. Price..... **\$4.50**

**MARBLE IMPROVED IVORY OR GOLD BEAD**

This sight enables one to make accurate shots at any range without stopping to adjust the rear sight.

On a range somewhat longer than the gun is sighted for, one can see the object aimed at, under centre of the bead as well as over.

It is an exceptionally valuable sight for running shots and is used for shooting at objects in the air by the most famous professional riflemen. Price **\$1.25**

**MARBLE
DUPLEX SIGHT**

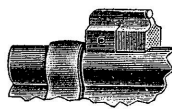

You can "draw a bead" in dim dawn, hazy brush, dazzling sun or jacklight's flare with this wonderful universal sight. Fine or coarse in one compact unit. The 1-16 inch Gold Bead is for target practice and game in ordinary light or on snow. The ⅛ inch White Enamel Bead is for all game in dubious light. Price **\$1.75**

COARSE BEAD FOLDED

COARSE BEAD UP

MARBLE CARBINE AND RIFLE SIGHTS

Made for all Standard American Rifles, Carbine and Revolvers. Price ranging from 40 to 70 cents, depending on model wanted. State make, model and calibre when ordering.

No. 94c—Price **\$1.25** No. 895—Price **\$1.25** No. 11—Price **\$1.25**

SPORTSMEN'S SUNDRIES—(Continued)

SHEARD'S GOLD BEAD HUNTING OR TARGET FRONT SIGHT

This sight is made with coarse, medium or fine gold bead of the proper size, shape and height to fill all rifles, carbines and pistols that have removable sights. This sight can also be fitted to arms with solid stationary front sights, but under these conditions arms must be sent to the factory. This sight is guaranteed to show up in the darkest timber and under all conditions, and will not blur. It will show the same color on two different colored objects, will stand the roughest kind of usage. When ordering be sure to specify the make, model and calibre of arm for which sight is intended. Price **\$1.75**

WATSON SIGHTS

No. 8.—Don't conflict the Watson No. 8 with others having a hoop or tube. It is different and very superior. The flat 22K gold or pure silver bead on the fine steel post can be seen in any light in which anything can be seen to shoot at. It is the only sight on the market having a bright bead with a Tube Protecting but not Shading the Bead. A variety of sizes of beads supplied, from fine to coarse. It is the most pleasing sight on earth to hold on a ground-hog's ear or a squirrel's head. For a quick and yet accurate shot at a running deer for instance, use the tube. Price..... **\$2.00**

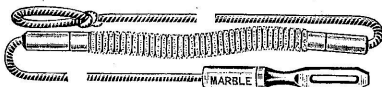

No. 6—This sight differs in optical effect from all other open sights on the market. The Gold or Silver bead is so constructed that when sighting on an object its true form is retained, without any dazzling star-like reflections. The face of the head is neatly matted. The White Enamel is whiter than other white sights and will remain so for all time. Oil and the like have no effect on it. Beads from 1/16 to 1/8 inches in four sizes. Price, Gold or Silver..... **\$1.75**

MARBLE SHOTGUN CLEANER

The brush is composed of brass washers that will not injure the bore. The spiral spring core forces the brush against the bore, exerting an equal pressure from muzzle to breech, regardless of choke. Price..... **\$1.10**

MARBLE FIELD CLEANER

This is a most practical rifle cleaner, as it is so compact it can be easily carried in the pocket. Cleaner consists of a bristle brush attached to a cord with weight at other end so that it can be dropped through barrel. Made in all calibres, from .22 to .50. Price..... **\$1.10**

WATSON No. 16

Blade Sights have all the good qualities of the No. 6. Supplied in 22K. Gold, Pure Silver, or White Enamel. Beads from 1/16" to 1/8" in four sizes. Made to fit all popular rifles and carbines requiring a Blade Sight held in slot by pin or screw.

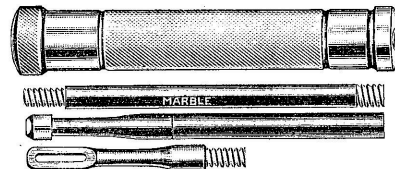

Price, Gold or Silver **\$1.75**
White Enamel **1.10**

MARBLE RIFLE CLEANERS

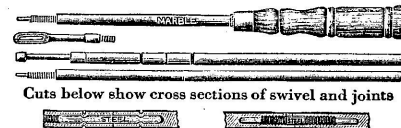

The principle of construction is a spirally bent spring of tempered wire with wire gauze washers, separated by soft metal. An equal pressure is exerted from breech to muzzle along the entire barrel. It follows the twist. Made for all calibres, adjustable to standard rods. Price **\$.75**

MARBLE'S REVOLVER RODS

The hollow screw-capped nickel-plated brass handle accommodates the other parts; also any make or size of cleaner and an extra section if needed. It is 3/4 x 5 in. in size. The three sections are made of brass. One contains steel swivel, same as Marble Rifle rods. No. 99, for 9-inch barrel. State calibre. Price..... **\$1.25**

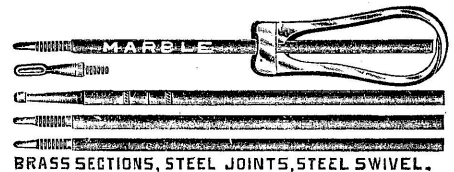

MARBLE'S JOINTED STEEL RIFLE RODS

Price includes bag. State length of barrel. Made in lengths 26, 28, 30 and 34 inches.
No. 9822—For .22 to .25 calibre, .204 inch diameter.
Price **\$1.50**
No. 9828—For .28 to .50 calibre, .25 inch diameter.
Price **\$1.50**

MARBLE'S POCKET STEEL ROD

For Rifles
and
Revolvers

Price includes case. State length of barrel.
For .22, for .22 to 25 calibre, give length. Price..... **\$2.00**
No. 228—For .28 to .50 calibre, give length. Price... **2.00**
For the convenience of those wishing to carry a rifle rod in their pocket or kit, this four-section pocket Steel Rod is very satisfactory. Constructed similar to steel rod above, and with handle same as "Marble's Pocket Rod". With jagged and slotted ends and canvas case.

SPORTSMEN'S SUNDRIES—(Continued)

MARBLE'S NITRO-SOLVENT OIL

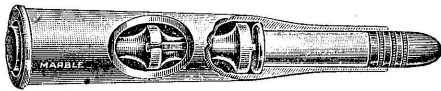

The wonderful new oil that will quickly dissolve the residue of all black and smokeless powders, including cordite. It stops corrosive action by neutralizing the acids of the residue before they have penetrated the steel. The oil contains no acid. If applied soon after shooting, arm can be laid aside for several days without wiping, and will be in good condition when cleaned. Will not gum. Marble's Nitro-Solvent Oil, 2 oz. in bottles. Price \$0.50

Marble's Nitro-Solvent Oil, 6 oz. in cans. Price

\$0.75

MARBLE'S AUXILIARY CARTRIDGE

Places the pistol cartridges at the forward end of shell chamber for firing. Bullet takes rifling immediately on being fired; does not strip and become deformed; does not lead barrel. Gives thoroughly satisfactory results. It allows the use of very cheap ammunition for small game or target shooting in a large high-power rifle.

The implement is simple, strong, and its use is perfectly harmless to any part of the rifle. Can be used through the magazine if desired. When rifle firing pin hits auxiliary pin, neither is harmed, because the primer or rim is soft and takes up the impact. The States of Illinois and Michigan adopted these Auxiliary Cartridges after exhaustive tests. Furnishes in the following sizes:

No. 150—Size .30 Remington for use with .32 Short Colt.

No. 151—Size .30-30 for use with .32 Short Colt.

No. 152—Size .25-35 for use with .25 Colt Automatic.

No. 153—Size .303 for use with .32 S. & W. Smokeless.

No. 154—Size .303 for use with .32 Colt Automatic.

No. 155—Size .30-40 for .32 S. & W. Smokeless.

No. 156—Size .30-40 for use with .32 Colt New Police.

No. 157—Size .30-40 for .32 Colt Automatic Cartridges.

No. 158—Size .32 W. S. for use with .32 Colt Auto.

No. 159—Size .30 Gov't. '03 and '06 New Springfield and Winchester, for use with .32 Colt Automatic.

No. 161—For Savage, .22 H.P. with .22 L.R., Smokeless, Semi-Smokeless and Lesmok.

No. 162—Size .30 Gov't. '03 and '06 New Springfield and Winchester for use with .32 S. & W. Smokeless.

No. 163—Size .25 Remington for use with .25 Colt Automatic.

No. 164—Size .32 Remington for use with .32 Colt Automatic.

No. 165—Size .303 British for use with .32 S. & W.

No. 166—Size .303 British for use with .32 Colt Auto.

No. 167—Size .35 Remington for use with .380 Colt Auto.

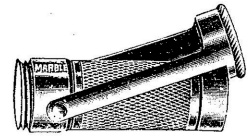

No. 168—Size .35 Winchester Model '95, for use with .380 Colt Automatic.

No. 169—Size 8 m/m for use with .32 Colt Auto.

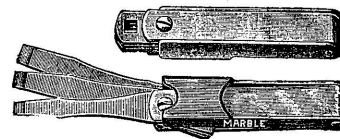

Each \$1.00

MARBLE'S WATERPROOF MATCH BOX

A knurled and nickered cylinder of drawn brass, which closes with an air and water-tight joint. It is about the size of a 12-gauge shotgun shell, and holds as many matches. A water-proof match-box is cheap life insurance to the man who is "caught out" in wet weather. It means warmth, dry clothes, comfort and something hot to eat and drink. No experienced woodsman or sportsman thinks of going into the forest or camp without one of those little life-savers. Price..... \$.75

MARBLE'S POCKET SCREW-DRIVER

Made of special screw-driver steel, perfectly tempered, guaranteed. It is a great thing for everybody, especially hunters, anglers, motorists, machinists, carpenters, locksmiths, storekeepers, farmers, salesmen and repairers of typewriters, adding machines, sewing machines, guns or any mechanical devices.

No. 264—Size when open, 5 1/4"; closed, 3 1/2". Price \$.75

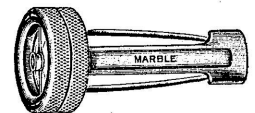

The Marble Extractor slips into the broken shell, grabs it by the nose and one motion of the lever throws out extractor and the broken section. Many a rifle has been ruined by the misdirected efforts to remove a broken shell from its chamber. The satisfaction of knowing you are prepared for any such emergency is worth several times the price of this extractor. Made for all calibres from .22 Automatic to .45-90.

No. 160—State calibre \$1.00

MARBLE'S HANDY COMPASS

Made to fasten firmly to belt, vest or coat. Always visible, no fumbling in pocket for compass and waiting for it to settle. Cannot be lost or left in camp. Cannot become erratic from partial demagnetization as with a compass carried in the pocket.

No. 082—Jewel capped needle, revolving celluloid dial. Price \$2.00

02356	Men's Ranger, 12 inches.....	4.25

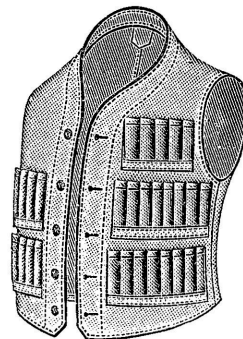

For still hunting, a moccasin is the only thing that can be worn in which a person may be "shod with silence." They are perfectly easy to the foot, are really a leather-stocking. In them, with three pairs of good woollen socks, the feet will always be warm, no matter how low the thermometer may register, because their flexibility allows the feet natural play, which keeps the blood circulating through them. A moccasin is indispensable in a well-regulated outing or canoe outfit. Also just the thing for snowshoeing.

No. 3530—14½" high larrigan, made from oil-tanned cowhide, full leather soles and heels. Price..... **\$9.75**

No. 3547—As above, 9" high. Price **8.00**

No. 3097—Real Buckskin—with pliable cream split tops; the tops come up over the ankles; high cut. Price **\$3.25**

Best quality 10-oz. Army Duck, dead grass color, full lined with 8-oz. Army Duck, shoulders reinforced and padded, corduroy collar, adjustable cuffs, six outside pockets with large flaps, three game pockets, entrance from front edges and back seams, double stitched throughout, cut-in pockets. One in a package, made in even sizes only, 38, 40, 42, 44 and 46 in chest measure. Average weight, each 2½ lb.

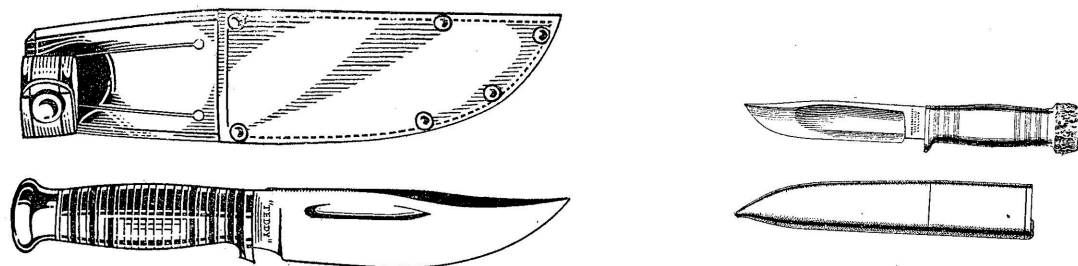

Hunting Coat—Tan Shade, Waterproof duck-hunting coat, made with openings for carrying game. Duckskin is waterproof, and guaranteed to keep hunter dry. Pants to match. Price **\$5.00**. Price of coat **\$10.00**

Shooting Vests—"Weather Beater" Shooting Vests are fitted with elastic holders for carrying shells. Will keep shells dry and are so placed as to never feel awkward or in the way. Price **\$4.00**

Black Leather Reversible Coat. Can be worn on either leather or corduroy side. Roomy coat and very warm, as the leather prevents the wind from going through. Price **\$14.50**

Aluminum Mess Kits for Camping, Scouting, Touring, etc., 7 pieces and Khaki bag packed and ready for the trail.

Consists of :

Aluminum Fry Pan
" Stew Pan
" Pail
Pail Cover

Aluminum Drinking Cup
" Tinned Fork
" Tinned Spoon
" Khaki Bag

Weight, 18 oz.

Price, \$4.00

The "Cello" Mess-Kit contains everything that is needed for Camp Cooking. It has the same careful and thorough construction as that of the "Cello" products. It is sanitary and durable.

A marked feature of the Fry Pan is the swivel "cool" handle. This feature will be appreciated by all users. Further, the handle of the Fry Pan has a hole in each end in which may be inserted a stick so that one may keep out of the smoke and heat of the fire when cooking. A novel feature of the Coffee Pail is its cover, which is so made that it can be used as a plate.

From Factory to You

As direct importers, we naturally have the first opportunity to acquire any of the best Agencies, and have selected only the highest grade of goods in these various lines. Our one and only aim is to serve our customers promptly with first grade goods at lowest prices.

It has been the purpose of LEVINE BROS. always to keep a trifle ahead of the times, hence we have taken the initiative in making changes and additions to our lines, and we solicit the pleasure of serving you, feeling confident that our stock now constitutes the very best for your particular field of sport. Foreign Goods or other goods which may have appeared on market, not listed in this catalogue, will be quoted on application.

HOW TO ORDER GOODS

When ordering, write as plainly as possible and describe goods as definitely as you can, give name, number and page, size, color and quantity wanted.

We will gladly supply you at any time with our order blanks on which to write your order.

When sending in an order, give the name of your Post Office, Railway Station, and your Express Office. If your Office is a Flag Station, send ample money to prepay charges, as we do not pay any charges.

State on order whether to be shipped by freight, express or mail.

Our responsibility ceases when goods are delivered to transportation companies or delivered in the Post Office.

Our goods are thoroughly examined and carefully packed. If any shipment reaches destination damaged or broken, be SURE to indicate "Package Broken" on carriers' receipt, and immediately file claim with the transportation company. OUR RESPONSIBILITY CEASES WHEN GOODS ARE DELIVERED TO THE CARRIER.

TERMS

Cash with order or C.O.D. Prices in this catalogue are net. When ordering merchandise c.o.d., you must remit one-quarter amount of purchase with order to guarantee carriage both ways. You will be credited on bill with full amount paid.

Remittances should be made by Post Office or Express Money Order, Bank Draft, Cash, or small amount in stamps. Personal cheques should be certified and at par Montreal. Persons unknown to us disregarding this request will subject their order to delay, until amount of cheque is collected.

BACK ORDERS

Our stock of merchandise is complete, and a fair assortment is always on hand so that the necessity for substituting is greatly reduced, but when unable to fill an order complete, we put unfilled portion on back order and notify you of shortage, and, unless otherwise instructed, will ship the balance at our earliest convenience.

Read This Guarantee

FOR THE HOME—AND FOR THE OUTDOOR

Justly famous for generations as the favorite of the hunter, tourist, trapper, surveyor, prospector and explorer—HUDSON'S BAY POINT BLANKETS are today rapidly winning a new reputation as a blanket for the HOME. There is a size for every bed; a range of attractive colorings to satisfy almost any requirement. Only the sizes and colors vary; the same traditionally good quality is found in every HUDSON'S BAY POINT BLANKET.

They turn the wind and the wet almost like a waterproof. They do not soak up the moisture. They wash well. They give a lifetime's service. The traveller in the far Northland finds HUDSON'S BAY POINT BLANKETS best for his bed of spruce boughs and the well-equipped camper prefers them for his cot. Now the city dweller has them for the sleeping porch. Many who sleep with open window even in wintertime would not be without the comfort of the HUDSON'S BAY POINT BLANKET in the bedroom. There are some "counterfeits". None is genuine without the Company's trademark, "Seal of Quality".

HUDSON BAY POINT BLANKETS may be had in the following colors: White, Gray, Khaki, Scarlet, Green and striped.

White, 3 point, 62 x 74, 8 lbs.	Price.....\$17.00	Scarlet, 3½ point, 63 x 81, 10 lbs.	Price..... 19.50
